

Submitter: Christopher Huggins

On Behalf Of:

Committee: House Committee On Rules

Measure: HB4131

HB 4131-5 and HB 4131-6 weaken protections for protestors & medics. In my city, the police department is under numerous investigations and sanctions due to its excessive use of force against its citizens and this very day are being exposed for lying about a mass shooter calling him a homeowner, untrue and irrelevant, saying the person was not connected to extreme right wingers (he was).

This institution is beyond repair and needs to be replaced. What should definitely not happen is to give Police more latitude to inflict violence upon the citizenry they claim to serve.
