

Submitter: Kendra Masters

On Behalf Of:

Committee: House Committee On Health Care

Measure: SB1529

Vote NO on SB 1529. This bill has transformed into a simple power grab. "Public health concern" and "health care emergency" are arbitrary terms that have no basis in fact. Studies now show that lockdown measures, including masking, are not effective and in fact create more harm than good. Testimonies from the actual people of this State are overwhelmingly in opposition to SB 1529 so you must vote No.
