

Submitter: Darran Wardle

On Behalf Of:

Committee: House Committee On Economic Recovery and Prosperity

Measure: SB1564

Please don't restrict the small farmers and make this a big business only thing. You could reduce the number of acres per tax lot and still let the small guys have a piece. We have just spent a lot of money in setting up a clean operation to start a small Hemp farm this year. This will crush us if we can't recover our costs. Go after the bad guys another way and let the good guys make a small living

Thanks

Darran
