

OREGON
FARM
BUREAU

Locally Grown
and
GROWING STRONG

House Committee on Revenue

February 22, 2022

Chair Nathanson, Members of the Committee,

Thank you for the opportunity to provide testimony in opposition to SB 1582 A. By way of background, the Oregon Farm Bureau (OFB) is the state's largest agricultural trade association, representing nearly 7,000 farm and ranch families in the state, many of whom live and work in and out of areas served by rural fire protection districts.

Whether it is through their careers, volunteer opportunities, or responsibilities as rural landowners, Oregon's farmers and ranchers frequently interact with wildfire on the landscape. Rural Oregonians were severely impacted by the unprecedented wildfires that occurred over Labor Day weekend 2020. Many OFB members were on the front lines in their communities, evacuating and caring for their employees, neighbors, animals, and friends who were in danger. Those who lost homes across the state were largely members of the agricultural community, including over a hundred agricultural employees whose homes were decimated by the Almeda Fire. In sum, Oregon's farmers and ranchers fully recognize the need for effective solutions to wildfire suppression, including the desire to streamline rural fire protection from those tasked with protecting our communities.

With this in mind, we have concerns with SB 1582 A because it forces improved properties to be annexed into a fire protection district if those properties fall within a certain distance of a fire station. On principle, OFB does not support forced annexation and would encourage proponents to amend the bill to be permissive, rather than a mandate. Landowners should not be required to join a protection district without any say as to whether they want to be served by the district or pay for the services. Additionally, under SB 1582 A there is no cap on the tax rate that the fire protection district can charge those that are forced into their district- this increased cost will disproportionately hurt rural property owners on fixed incomes.

For these reasons we oppose SB 1582 A as written and would like to see the bill amended so that landowners have a say in whether they must be a part of a district. Thank you for the opportunity to provide testimony today and please do not hesitate to reach out with any questions.

Lauren Smith
