

Submitter: Natasha O
On Behalf Of:
Committee: House Committee On Health Care
Measure: SB1529

Hello,

I oppose SB 1529A as I do not believe unelected members should have the authority to declare health care emergencies, especially if it has the potential to impact the economy of the state. OHA has already abused their power and authority repeatedly with the COVID-19 health "emergency". Oregonians want accountability and this power needs to be in the hands of the legislature where elected officials can be removed for not listening to the voices of the people they represent. I urge you to please vote no.

Thank you.
