

Submitter: Jessica Schofield

On Behalf Of:

Committee: House Committee On Health Care

Measure: SB1529

I oppose this bill. Please do not allow OHA any additional power or leeway in the declaration or handling of state health “emergencies”. The overreach of power by both non elected and elected officials over the last two years should serve as an urgent reminder that the people of Oregon deserve to be consulted and heard. Forfeiting more control to OHA on decisions that affect the personal lives or health decisions of Oregonians or their families should be whole heartedly avoided.
