

On behalf of myself, my family, and other noble-minded individuals of Oregon, of which a firm resolve and understanding of the current affairs of the State, Nation, and World therein reside. As thousands of people in the Capital of Canada and across their country have shown; and in our own experience across this state and in the open states of the Union, there is no pandemic emergency.

We the People, on multiple occasions have attempted to make it clear to our elected and unelected officials, that We the People, using our own GOD-given discernment can see and can testify to the false and misleading claims of our representatives and health officials as to this Covid19 narrative that has been foisted upon us from powers in high places and financial support from the global wealth of the elite.

You have continued to ignore our pleas – to the extent that you, now – will attempt to further erode our Constitutional Rights as Americans and as Oregonians, and give yourself absolute powers of Authority, through our health agencies – to, at anytime of your choosing, remove explicit freedoms of body and autonomy.

These facts are self-evident, since the planned release of the Patented Covid19 Bioweapon that spurned and promoted the health care frenzy of millions around the world to partake in experimental mRNA injections under false pretenses, lack of informed consent, and, in many cases, under duress:

1. Fauci has lied to Congress and continues to obfuscate the nature of this pandemic, by eliminating alternative treatments while pushing this injection, that is, in the case of Moderna partially owned by the NIH.
2. CDC has lost all credibility. NIH is not far behind.
3. Sotomayor, attempting to support the covid narrative with disinformation (lies), is costing the Supreme Court in its credibility. The People will not accede to a corrupt decision.

Previous Testimonies by hundreds, if not, thousands of Oregonians have gone ignored, similarly to the leadership in Canada, and their subsequent authoritarian quelling of peaceful protesters.

This is to remind you of your oaths to the Constitution. We live in a representative government, not a dictatorship. Actions to date taken against the American People have been an Act of War by any metric, including the Nuremberg Code. This Act of War changed all status, legal, perceived, and real, on that day.

It is assumed by We, the People, that, as a Legislator, your understanding of our common, shared, reality is controlled by the minions who 'serve' you. Your handlers have likely NOT shared the Devolution information with you.

Here is a link to encapsulated description of Devolution that may assist your thinking for the Immediate, and Long term future. We are at War. Every action and decision and Vote will have significant and serious consequences.
