

Submitter: Travis Bond

On Behalf Of:

Committee: House Committee On Health Care

Measure: SB1529

I am writing this letter in opposition to the SB1529-engrossed Bill. This legislature sounds far too overreaching and vague and should be revised or revoked. As seen with the chaos of the Covid pandemic, not even the CDC has a clear answer, so we need to make sure that no government agencies have the power to enact mandates based on conjecture.

Thank you for your time
