

Submitter: Rachel Anderson
On Behalf Of: SB1529
Committee: House Committee On Health Care
Measure: SB1529

Dear honorable legislators,

Thank you for the opportunity to express opposition to SB1529, specifically the provision that allows the unelected Public Health Director to declare a Health Care Emergency.

In a democracy, it is very important that such powers be maintained by those who have been elected by the voice of the people. It is wrong to give that kind of power to an unelected official.

Thank you,
Dr. Rachel Anderson
Eugene, OR
