

Submitter: Sarah Napier

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1552

Please Vote YES on SB 1552 - All students and their guardians/parents need choice as we have ever-changing learners with all of the special needs kids and many many learning disabilities from these jabs - many suffer from auto-immune disorders and cannot be in school all day, 5 days a week. We must not discriminate against special needs of any kind and that includes dyslexia and the family of learning delays.

Stakeholders demand choice - Vote YES in SB 1552

Thank You and God Bless!!!!???????????
