

Submitter: Carly Langston

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: SB1589

I strongly oppose this bill!!!! There isn't enough science to back this and if it goes through a lot of business's and jobs will be no more, along with a whole community of people who have lived and played on the river their whole lives. This means the world to us and will have a huge effect on our livelihoods if this bill is passed. Please take time to reconsider.
