

Submitter: Julie Slaikjer

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: SB1589

I'm writing to encourage legislators to oppose SB1589.

The Newberg Pool of the Willamette river does not need increased regulations. It needs to have funding in order for current regulations enforced and proper signage to installed/updated/increased.

Rules are in place. Additional rules are not needed. Adding bans on certain types of boats/activities does not help anyone and only takes away from the many boating families who enjoy water activities on the river and the businesses their presence and those activities support.

Please oppose SB1589.

Thank you,

Julie Slaikjer
