

Submitter: Mark Zertanna

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: SB1589

Family boating is one of the last activities that all member of a family can partake in which gets them outdoors.

I'm greatly concerned that SB 1589 is to restrictive on this family activity . I asking all member to vote no on SB 1589.

Rivers and water ways are public treasure and everyone should be able to enjoy these great natural resources.

If there are serous issues with bank deuteriation then lets find a solution that is not so restrictive . If the small

number of rich people who have purchased homes or land on the river have an issue that is very unfortunate but

family use of riverways has been occurring many years prior to their purchase.

Buying land on a waterway and

then complaining about boating is like buying land by an airport and them

complaining about air traffic , you

knew what you were in for .

Thanks for your time
