

Submitter: Caroline Robert
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1552

As a citizen,tax payer of Oregon and a mother of a 8 and 10 years old boys,I know more than anyone which school will be the best for my children.

I know that schools , teachers do not know much about what is the best for my children and my children deserve the best to thrive and become good citizen .

It is my responsibility to choose for them which school system will be the best for them.

The 3 % enrollment cap must be remove...school choose is the only way.

Thank you
