

Submitter: Alexandra Tarpo

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1552

As a mom of four young children, two of which are currently homeschooling and a part of a charter school, I support the freedom for parents to choose the “best fit” education system and method for their children. It should not be a decision or “allowance” of the district as parents know their children’s learning style better than anyone. Therefore, I support this bill.
