

Submitter: Sarah Clews

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1552

Education is not a one size fits all so I'm definitely in support of this bill. I have 3 children who will be benefiting from a distance charter school. Parents should have the right to choose the education that is best for their child without worrying about district caps. If there's anything the last 2 years have taught us, it's that we need more education choices for our children.
