ISSUES DISCUSSED:

EFFECT OF AMENDMENT:

No amendment.

BACKGROUND:

An insurer has certain duties when environmental claims are filed against its insured, including participation in nonbinding environmental claim mediation upon the insured’s request. The Attorney General must appoint a provider to run an environmental claims mediation program, make rules that set standards of qualifications, training and experience for the mediators, and make rules setting the schedule of fees for the program.

House Bill 2130 eliminates the requirement that the Attorney General make rules for a nonbinding environmental claims mediation program and appoint a provider to run the program.
