- *Revenue impact statement issued*

ISSUES DISCUSSED:

EFFECT OF AMENDMENT:

No amendment.

BACKGROUND:

“Podiatry” is defined, in part, as “the diagnosis or the medical, physical or surgical treatment of ailments of the human foot, ankle and tendons directly attached to and governing the function of the foot and ankle” (ORS 677.010). House Bill 2817 would clarify the area of leg to which definition of “podiatry” applies.
