Oregon Housing Needs Analysis - Goal 10 implementation at the regional and local level

The goal: Every Oregonian will be able to find safe and affordable housing in the the community of their choice.

We will prioritize the development of affordable and workforce housing through capacity-building, cutting red tape and making critical infrastructure investments.

Keeping people housed is a priority and will require innovative programs and resources.

We will balance the need for development with our commitment to maintaining the natural beauty and resources of our state.

State support for locally-driven development is key and will require accountability to aligned goals to ensure there is a "home for everyone" in Oregon.

Representative Maxine Dexter, M.D.
