STANDARDIZED SCHOOL SAFETY RESPONSE PLATFORM

The United States Department of Homeland Security has certified products under the SAFETY Act (Support Anti-terrorism by Fostering Effective Technologies Act).

✓ Providing ubiquitous coverage through a scalable option that can be deployed across all facilities quickly and effectively

✓ Cost effective, and the ability to implement without the need for construction or building upgrades and can be deployed by start of school year

✓ Non-intrusive security that arms individuals with technology providing tools on the ground

✓ Does not require costly hardware installations that must be maintained and replaced over time

✓ Standardized communication tool to enhance interoperability that allows first responders from multiple jurisdictions to communicate during multi-agency response
