

HB 3166 STAFF MEASURE SUMMARY

House Committee On Climate, Energy, and Environment

Prepared By: Erin Pischke, LPRO Analyst

Sub-Referral To: Joint Committee On Ways and Means

Meeting Dates: 2/22

WHAT THE MEASURE DOES:

Requires Oregon Department of Energy (ODOE), in consultation with the Oregon Housing and Community Services Department, to establish: 1) a **whole-home energy savings program** to provide rebates to individual homeowners, multifamily building owners, and aggregators for home energy efficiency retrofits; and 2) a **high-efficiency electric home rebate program** to provide rebates for the purchase and installation of appliances and non-appliance upgrades. Requires ODOE to consult with stakeholders and ensure the program maximizes benefits for applicants by leveraging federal and state resources. Requires ODOE to create a single resource that provides **information and technical assistance** to interested persons on available energy efficiency incentives and programs. Requires ODOE to **coordinate information and data exchanges between federal and state agencies**, private and public utility providers, and energy efficiency incentive or program providers as may be necessary. Authorizes ODOE to contract with a nonprofit or other entity as may be necessary to carry out the provisions of section 2 of the Act. Takes effect on 91st day following adjournment sine die.

- *FISCAL: May have fiscal impact, but no statement issued yet*
- *REVENUE: May have revenue impact, but no statement issued yet*

Subsequent Referral(s) to Joint Committee on Ways and Means

ISSUES DISCUSSED:

EFFECT OF AMENDMENT:

No amendment.

BACKGROUND:

Older buildings are often less energy efficient than newer ones because energy codes have been implemented and made stricter over time. Upgrading older buildings can also be challenging. Housing that has not been retrofitted with energy efficiency upgrades is expensive to heat or outfit with proper filtration. According to the New Buildings Institute, over 85% of Oregon's single-family homes were built before 2000.

House Bill 3166 would require the Oregon Department of Energy, in consultation with the Oregon Housing and Community Services Department, to establish a whole-home energy savings program and a high-efficiency electric home rebate program. The measure would also require ODOE to coordinate information and data exchanges between federal and state agencies, private and public utility providers, and energy efficiency incentive or program providers.
