No amendment.

**BACKGROUND:**

Invasive species are nonnative organisms that cause economic or environmental harm and are capable of spreading to new areas of the state. Nonharmful exotic organisms and domestic livestock are not considered invasive species.

The Oregon Invasive Species Council (Council) was established by the legislature in 2001 to conduct a comprehensive and coordinated effort to prevent, detect, control, and eliminate invasive species harming the region's economy, health, and natural resources. The Council is responsible for maintaining an invasive species reporting hotline, educating the public about invasive species, developing a statewide plan for invasive species, and providing grants or loans for eradication of new invasions.

Senate Bill 899 would appropriate \$480,000 General Fund moneys to the Invasive Species Council for emergency purposes, outreach and education, and operations.
