BACKGROUND:

The State Preparedness and Incident Response Equipment (SPIRE) program provides grant funds for the purchase and distribution of equipment to local jurisdictions, including vehicles and other property, to be maintained and used by those jurisdictions until needed for use during an emergency. The program was inaugurated during the 2017 session, with a second round approved with the passage of House Bill 2426 (2021). The 2021 legislation also expanded the the types of equipment eligible for grants to include those used in urban search and rescue operations.

House Bill 2873 authorizes the issuance of \$5 million in lottery bonds to fund additional SPIRE program grants.
