#### **BACKGROUND:**

In 2021, the Legislative Assembly enacted House Bill 2842, which established the Healthy Homes Program within the Oregon Health Authority (OHA), for the purpose of awarding grants to eligible entities which provide financial assistance to low income households and communities disproportionately affected by environmental pollution or other hazards, and to landlords for the repair and rehabilitation of residential dwelling units. The measure established the Healthy Homes Repair Fund, and appropriated \$10 million in General Fund moneys for the 2021-2023 biennium to OHA to provide grants and cover administrative costs. The legislation limited grant program recipients to administrative and program delivery costs to no more than 15 percent of grant funds.
