ISSUES DISCUSSED:

EFFECT OF AMENDMENT:

No amendment.

BACKGROUND:

Public contracting is governed by the Public Contracting Code (Code) contained in ORS Chapters 279A, 279B, and 279C. Chapter 279A contains general provisions applicable to the Code, Chapter 279B contains laws overseeing public procurement contracts, and Chapter 279C governs public improvement and related contracts. The judicial and legislative department are exempted from the Code. Generally, a contracting agency awards contracts to the lowest bidder or best proposer. However, the Code contains provisions allowing contracting agencies to give preference in certain circumstances. Additionally, the Code allows for an expedited process for awarding contracts that meet maximum price thresholds.

The Office for Business Inclusion and Diversity (COBID) is the sole certification authority for Oregon. Certification provides businesses with the opportunity to compete for targeted government contracting opportunities. There are several types of certifications: federally funded transportation related projects and opportunities funded with state dollars, such as the Minority Business Enterprise Program or the Emerging Small Business Program.

Senate Bill 1047 raises the contract price threshold under which contracting agencies may apply certain solicitation and procurement methods for public contracts and requires DAS to promote a policy of diversity, equity, and inclusion in public contracting.
