#### BACKGROUND:

Under current Oregon residential and landlord tenant law (90.100), recreational vehicle occupancy falls within the category of vacation occupancy, defined as an occupancy that is less than 45 days in a unit that is not the occupant's principal residence. Recreational vehicles are defined as a vehicle with or without motive power that is designed for use as temporary living quarters, and are included in the definition of manufactured dwellings.

House Bill 2634 defines "recreational vehicle park" within Landlord and Tenant Act. It expands the definition of vacation occupancy to include occupancies of up to 90 days at a recreational vehicle park, and allows a landlord to evict recreational vehicle space tenants without cause 14 days after providing an eviction notice. The measure distinguishes recreational vehicles from manufactured dwellings, and describes landlord or recreational vehicle park owner rights related to notice and disposal of abandoned recreational vehicles.
