BACKGROUND:

Property tax exemptions for disabled veterans have been part of Oregon law since 1921. Oregon Revised Statute 307.250 - 307.270 authorizes property tax exemptions for Oregon veterans with disabilities and their surviving spouses who are not remarried.

Senate Bill 884 increases existing property tax exemption rates and creates a new exemption. The measure proposes increasing, from \$15,000 to \$60,000, the existing property tax exemption for veterans having disabilities of 40 percent or more. The current exemption is subject to a three percent increase each tax year.

The measure also increases, from \$18,000 to \$65,000, the existing property tax exemption for having a service-related disability of at least 40 percent but less than 100 percent. The current exemption in state law is for veterans with a service-related disability of 40 percent or more, which is subject to a three percent increase each tax year.

SB 884 -3 STAFF MEASURE SUMMARY

The measure proposes a new property tax exemption of up to \$150,000 for veterans who are officially certified as having a service-related disability of 100 percent, or who have more than one service-related disability whose combined ratings equal 100 percent. This section includes provisions for the surviving spouse of a veteran who died as a result of their service-related disability and allows counties to adopt ordinances that establish income limitations for exemption eligibility.

SB884 also recodifies that a “surviving spouse of a veteran” is a veteran’s surviving spouse who has not remarried, and updates current state law with this definition.
