BACKGROUND:

House Bill 3156 (2021) would have required each community college and public university to pay part-time faculty members at least 85 percent of salary paid to a full-time faculty member with identical levels of education and experience starting in the 2023-2024 academic school year.

Senate Bill 416 requires public universities and community colleges to pay part-time faculty same per-hour rate as equally experienced full-time faculty teaching comparable courses and appropriates unspecified amount from the General Fund to cover the cost of implementation.
