

Oregon Registered Apprenticeship in Teaching

Teacher Standards and Practices Commission (TSPC)

in Collaboration with

Oregon Bureau of Labor & Industries

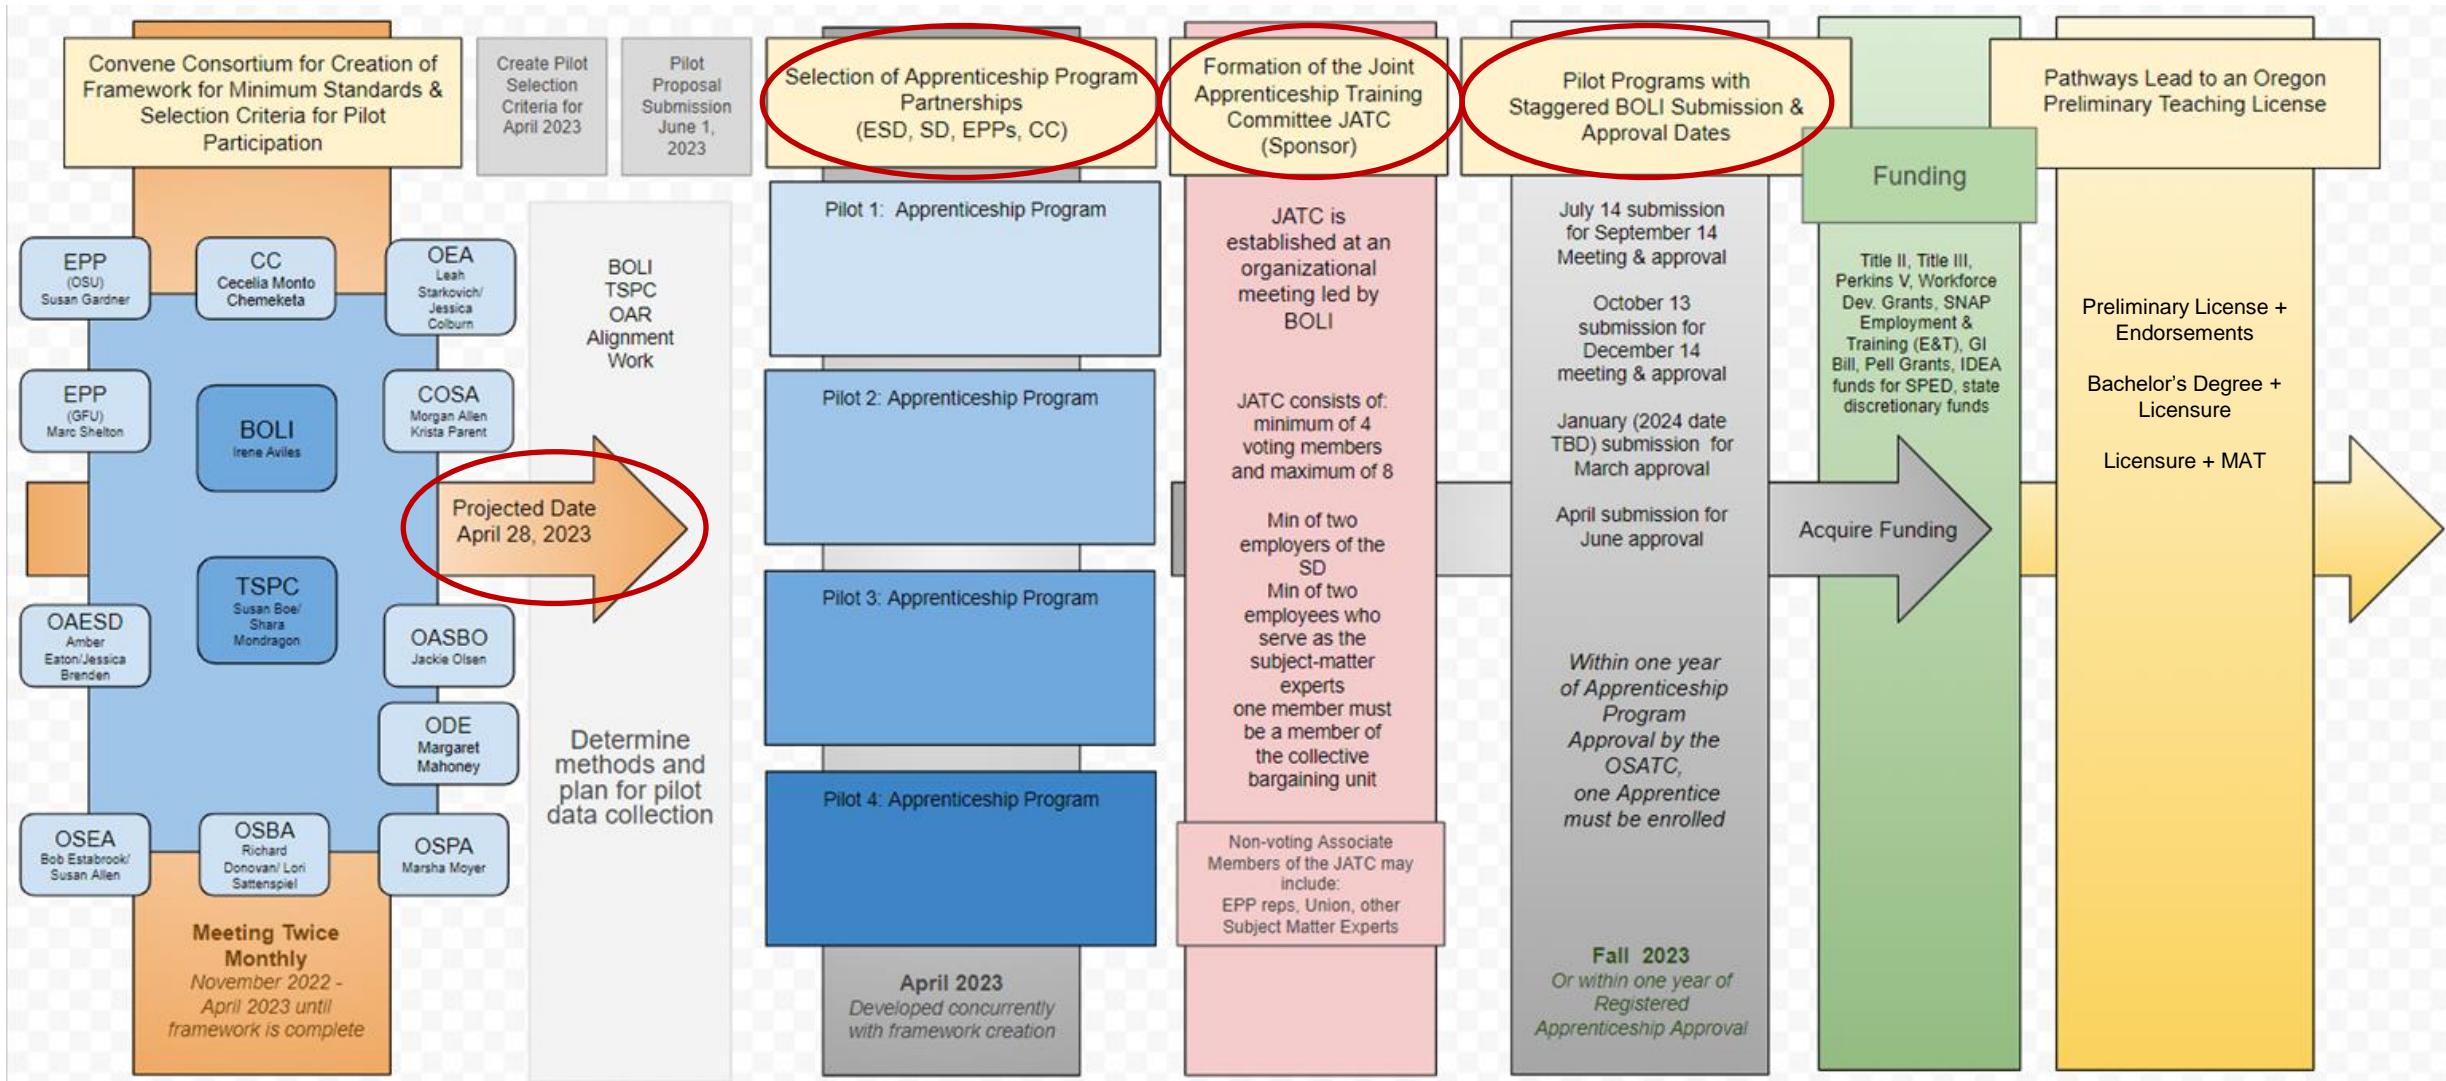

Oregon Apprenticeship in Teaching: General Overview of Progress

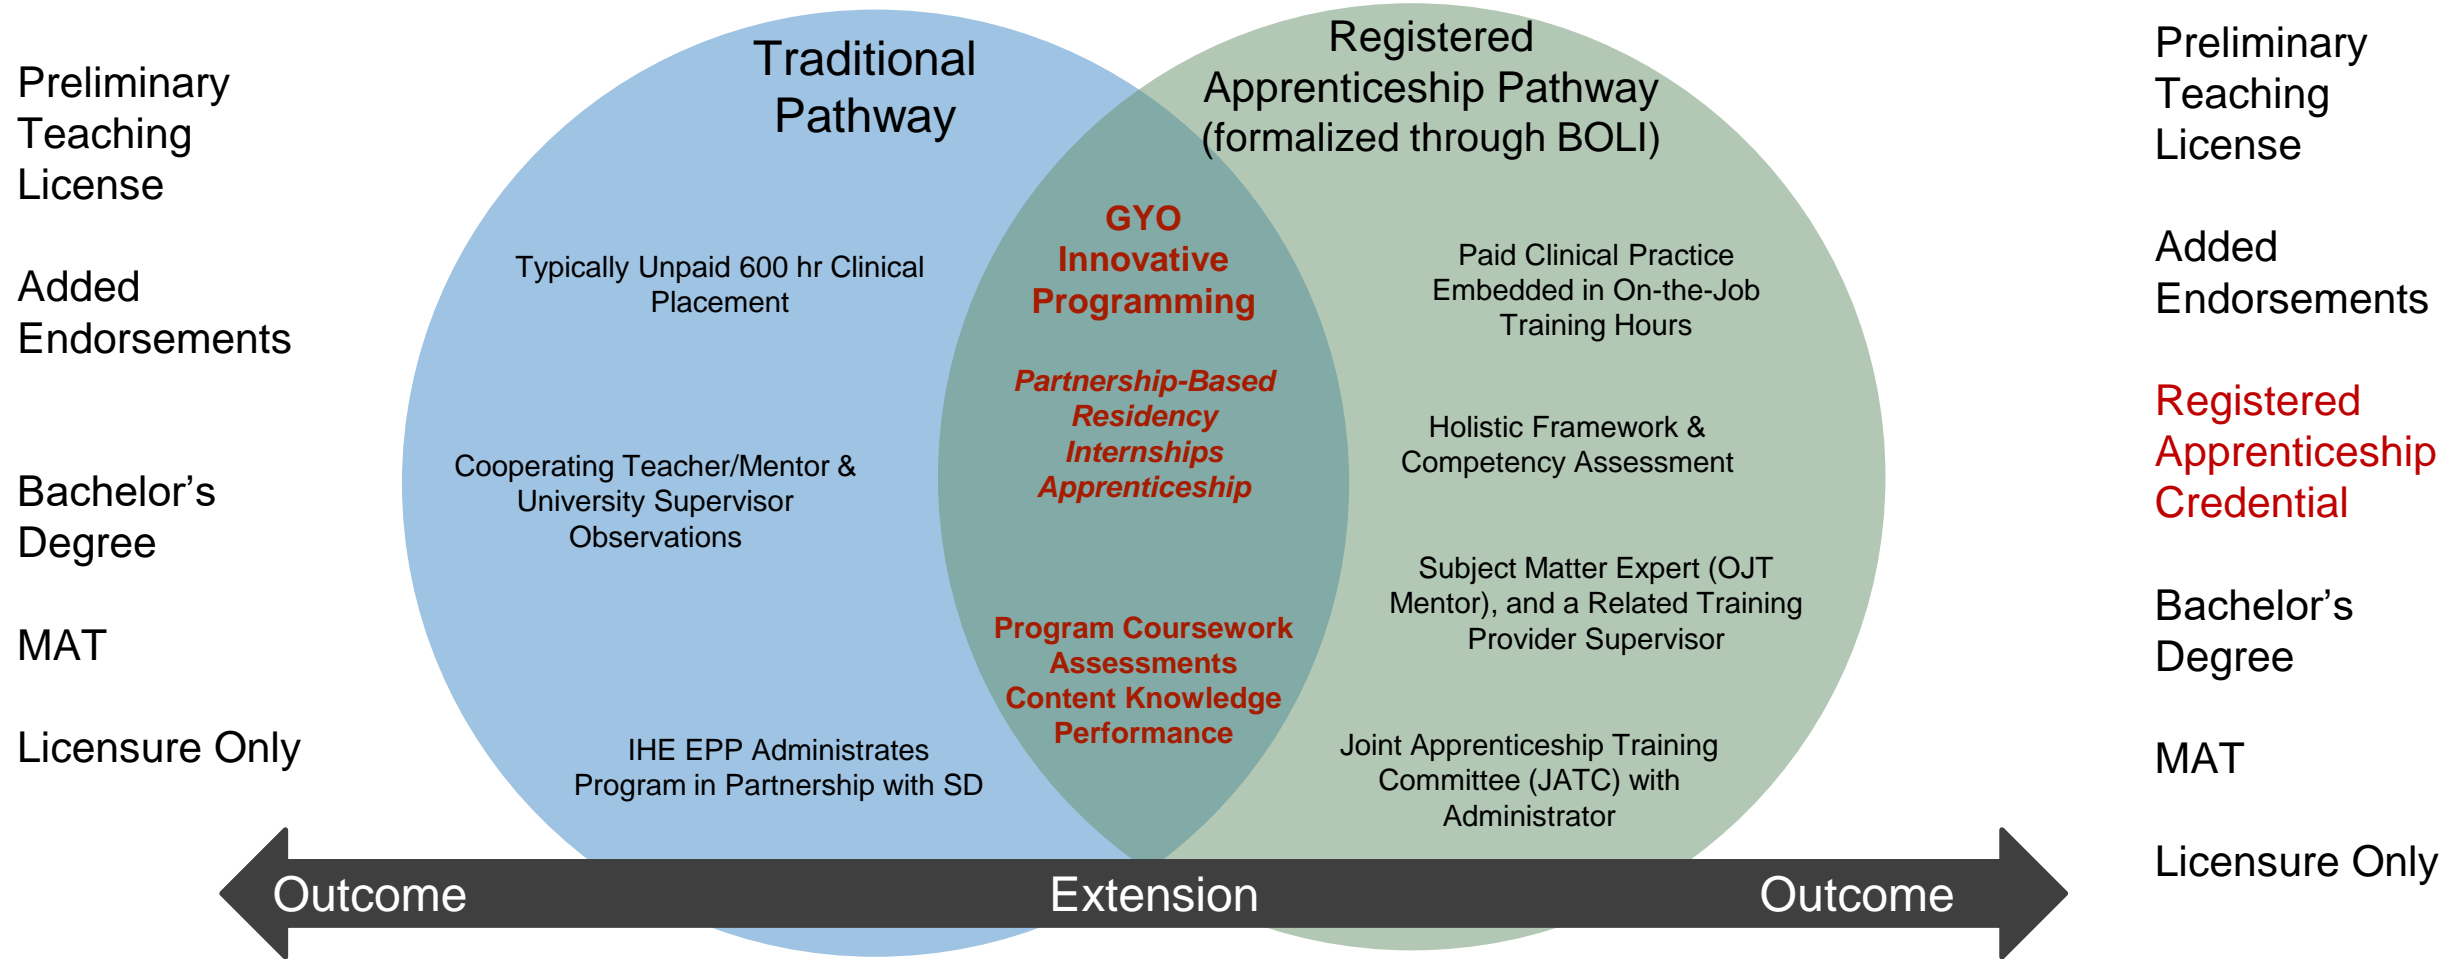

- Oregon Registered Apprenticeship must be approved by Oregon Bureau of Labor & Industries and align with Teacher Standards and Practices Program Approval Standards.
- TSPC in Collaboration with BOLI and a Consortium of 11 Oregon Education Partners are creating the Industry Standard for the Oregon Apprenticeship in Teaching Framework.
- The minimum industry standard will serve as the template for Oregon Related Training Providers (EPPs and Community Colleges) and their Training Agent's (District Partners) New Committee Toolkit submissions to the Oregon State Apprenticeship and Training Council (OSATC) for approval.
- Draft of the framework was approved by TSPC on April 6.
- We anticipate 4 pilot programs to use this framework for their Apprenticeship Programs with a possible launch date as early as September 2023.
- For detailed description see slide deck.
