## Original HB 5015 (2019) Budget Note

The Oregon Department of Education is instructed to study the various K-12 Grant-in-Aid programs to determine if further programs can be combined with other programs or eliminated. The Department is to identify any barriers or required statutory changes in its study. Groups representing the various K-12 interest groups should be consulted in this effort. The Department is to submit a preliminary report to the Interim Ways and Means Committee by February 1, 2020 with a final report as part of their Ways and Means presentation to the 2021 legislative session.

- Requires applicants for SIA funds to consider the recommendations from student success plan advisory groups

- Changes the report due date regarding funds received by public charter schools under the Statewide Education Initiatives Account of the Student Success Act (SSA) to Feb 1st - aligning with other SSA legislative update and reports

# Getting to the Essence

---

Each change presented represents an opportunity to strengthen alignment, improve coordination, or reduce administrative burden and/or administrative confusion.

ODE continues to pursue additional ways to make the right work easier for school districts and education partners while meeting the responsibilities we hold under federal and state law and in service to students, educators, and communities.
