No amendment.

BACKGROUND:

Several Oregon laws govern state agency acceptance of credit card payments and the imposition of a surcharge to offset fees associated with the acceptance of a credit card payment. A total of 54 state agencies currently accept payments by credit card. Three of these agencies (Department of Environmental Quality, Department of Fish and Wildlife, and Department of Transportation) have statutory authority to collect fees to offset the costs of accepting payment by credit card. Additionally, ORS 291.055 governs the process for state agencies seeking to create new fees or increase fees, requiring a fee ratification process with enabling legislation for fees established or increased by administrative rule. The fee ratification process outlined in ORS 291.055 does not apply to fees set in statute.

Senate Bill 538 A allows a state agency that accepts or collects payment by credit or debit card to add a fee or surcharge to offset amounts charged or withheld from the state agency accepting the credit or debit card payment.
