OPEN GOVERNMENT IMPACT

Legislative Counsel has not adopted standards for drafting measures that establish exemptions from disclosure of public records.

This measure removes the exemption from public disclosure of identifying information contained in requests from a federal agency relating to immigration enforcement and any identifying information the Oregon Criminal Justice Commission receives relating to the receipt of the request or the reporting of the request. It also removes the exemption from public disclosure of personally identifiable information of individuals contained in reports involving sanctuary violations received by the Department of Justice.

If those public records that could be subject to public disclosure were instead subject to mandatory disclosure under public records law, the public could receive information regarding immigration enforcement requests received by Oregon public bodies, the reporting of those requests to the commission and reports of sanctuary violations reported to the department.
