OPEN GOVERNMENT IMPACT

Legislative Counsel has not adopted standards for drafting measures that establish exemptions from disclosure of public records.

This measure exempts from public disclosure the name, home address, professional address or location of an individual who is authorized to provide physical and behavioral health care services in this state and who provides reproductive and gender-affirming health care services.

If those public records that could be subject to public disclosure were instead subject to mandatory disclosure under public records law, the public could receive information of health care workers who provide reproductive and gender-affirming health care services.
