

Open Government Impact Statement

82nd Oregon Legislative Assembly
2023 Regular Session

Measure: HB 3579 - A

Only impacts on Original or Engrossed
Versions are Considered Official

Prepared by: Dexter A. Johnson
Date: 4/12/2023

SUMMARY

Requires Oregon Department of Administrative Services to adopt rules to govern procurements of clean energy technology. Directs department to cooperate with state agencies with expertise in energy production and conservation and in reducing or mitigating environmental impacts. Specifies required contents of rules. Directs other state agencies to cooperate with department in adopting and implementing rules.

Permits department to enter into cooperative procurements and intergovernmental agreements to procure clean energy technology in combination with other governmental bodies in this state, State of Washington and Province of British Columbia to provide incentive for clean energy technology manufacturers and suppliers to create and retain high-skilled manufacturing jobs.

Establishes Task Force on Establishing, Attracting and Sustaining Manufacturing of Clean Energy Technology. Specifies task force membership and requires task force to study and recommend methods of attracting, fostering and sustaining manufacturing firms and operations in this state, while maximizing additional benefits, including creating and sustaining living wage or union jobs, alleviating supply chain constraints and improving access to clean energy technologies, supporting technological innovation and diversifying economy of this state.

Establishes Oregon Clean Energy Technology Manufacturing Opportunity Fund and appropriates moneys in fund to Oregon Business Development Department. Permits department to make expenditures from fund to foster, attract and sustain clean energy technology industries, early-stage companies that can grow into manufacturing operations and for other purposes, including making grants to certified community development financial institution for allocation to nonprofit organizations that promote clean energy technology manufacturing.

Takes effect on 91st day following adjournment sine die.
