#### ISSUES DISCUSSED:

- Reducing barriers to service in the Legislative Assembly
- Clarifying intent and how measure would be implemented

#### EFFECT OF AMENDMENT:

Clarifies that costs incurred for transportation and housing are costs associated with accommodating a disability and only in excess of amounts that would typically be incurred by a member who is not afforded rights and protections as a person with disabilities.

#### BACKGROUND:

The Americans with Disabilities Act (ADA) is a federal civil rights law that prohibits discrimination against people with disabilities in everyday activities. The ADA guarantees that people with disabilities have the same opportunities as everyone else to enjoy employment opportunities, purchase goods and services, and participate in state and local government programs.

ORS chapter 659A declares it the "public policy of Oregon to guarantee individuals the fullest possible participation in the social and economic life of the state, to engage in remunerative employment, to use and enjoy places of public accommodation, resort or amusement, to participate in and receive the benefits of the services, programs and activities of state government and to secure housing accommodations of their choice, without discrimination on the basis of disability." Under ORS 659A.104, an individual has a disability if:

- The individual has a physical or mental impairment that substantially limits one or more major life activities of the individual.
- The individual has a record of having a physical or mental impairment that substantially limits one or more major life activities of the individual.

## **HB 2422 A STAFF MEASURE SUMMARY**

- The individual is regarded as having a physical or mental impairment that substantially limits one or more major life activities of the individual.
