25 the time that the city is next required to adopt a housing production strategy under ORS  
26 197.290 (1) that describe how the city has addressed the audit’s findings and any suggested

3 within 60 days of the date the request is mailed to the local government or special district.

4 “(b) The requestor and the local government or special district may enter into mediation to re-

6 mediation services when jointly requested by the local government or special district and the

8 “(c) If the local government or special district does not act in a manner which the requestor

10 paragraph (a) of this subsection, a petition may be presented to the Land Conservation and Devel-  
11 opment Commission under ORS 197.324.

12 “(3) A metropolitan service district may request an enforcement order under ORS 197.320 (12)

14 “(4) **The department, without the prior approval of the commission, may request an**  
15 **enforcement order under ORS 197.320 (13) without first complying with subsections (1) and**  
16 **(2) of this section. Notwithstanding ORS 183.635 (2) and 197.328 (1), the request under this**  
17 **subsection must be assigned to an administrative law judge appointed under ORS 183.635**  
18 **unless the commission has previously appointed a hearing officer or a pool of hearing officers**  
19 **to review petitions filed under this section. Before the entry of a final order under ORS**  
20 **197.319 to 197.335, the department, in its discretion, may dismiss a petition filed by the de-**  
21 **partment under this section and refer a city to the housing acceleration program under ORS**  
22 **197.293.**

32 such compliance[;].

33 “(2) A plan, program, rule or regulation affecting land use adopted by a state agency or special  
34 district is not in compliance with the goals by the date set in ORS 197.245 or 197.250 for such

36 “(3) A local government is not making satisfactory progress toward performance of its compli-  
37 ance schedule[;].

41 compliance schedule directed to developing the plan or regulation[;].

42 “(6) A local government has engaged in a pattern or practice of decision making that violates  
43 an acknowledged comprehensive plan or land use regulation. In making its determination under this  
44 subsection, the commission shall determine whether there is evidence in the record to support the  
45 decisions made. The commission shall not judge the issue solely upon adequacy of the findings in

1 support of the decisions[;].

2 “(7) A local government has failed to comply with a commission order entered under ORS  
3 197.644[;].

19 **icies that create additional, unnecessary cost or delay to affordable or market-rate housing**  
20 **production;**

21 “(b) **Has a pattern or practice of creating adverse disparate impacts to state or federal**  
22 **protected classes or inhibiting equitable access to housing choice, as described in ORS 197.290**  
23 **(2)(b) to (d);**

24 “(c) **Has failed to enter into a housing acceleration agreement as required under ORS**

29 “**SECTION 17.** ORS 197.335 is amended to read:

30 “197.335. (1) An order issued under ORS 197.328 and the copy of the order mailed to the local  
31 government, state agency or special district [*shall*] **must** set forth:

32 “(a) The nature of the noncompliance, including, but not limited to, the contents of the com-  
33 prehensive plan or land use regulation, if any, of a local government that do not comply with the  
34 goals or the contents of a plan, program or regulation affecting land use adopted by a state agency  
35 or special district that do not comply with the goals. In the case of a pattern or practice of  
36 decision-making [*which violates the goals, comprehensive plan or land use regulations, the order*  
37 *shall*], **the order must** specify the decision-making [*which*] **that** constitutes the pattern or practice,  
38 including specific provisions the Land Conservation and Development Commission believes are being  
39 misapplied[;].

40 “(b) The specific lands, if any, within a local government for which the existing plan or land use  
41 regulation, if any, does not comply with the goals[; and].

42 “(c) The corrective action decided upon by the commission, including the specific requirements,  
43 with which the local government, state agency or special district must comply. In the case of a  
44 pattern or practice of decision-making [*that violates an acknowledged comprehensive plan or land use*  
45 *regulation*], the commission may require revisions to the comprehensive plan, land use regulations

1 or local procedures which the commission believes are necessary to correct the pattern or practice.  
2 Notwithstanding the provisions of this section, except as provided in subsection (3)(c) of this section,  
3 an enforcement order does not affect:

4 “(A) Land use applications filed with a local government prior to the date of adoption of the  
5 enforcement order unless specifically identified by the order;

6 “(B) Land use approvals issued by a local government prior to the date of adoption of the  
7 enforcement order; or

8 “(C) The time limit for exercising land use approvals issued by a local government prior to the  
9 date of adoption of the enforcement order.

10 “(2) Judicial review of a final order of the commission [*shall be*] **is** governed by the provisions  
11 of ORS chapter 183 applicable to contested cases except as otherwise stated in this section. The  
12 commission’s final order [*shall*] **must** include a clear statement of findings which set forth the basis  
13 for the order. Where a petition to review the order has been filed in the Court of Appeals, the  
14 commission shall transmit to the court the entire administrative record of the proceeding under re-  
15 view. Notwithstanding ORS 183.482 (3) relating to a stay of enforcement of an agency order, an  
16 appellate court, before it may stay an order of the commission, shall give due consideration to the  
17 public interest in the continued enforcement of the commission’s order and may consider testimony  
18 or affidavits thereon. Upon review, an appellate court may affirm, reverse, modify or remand the  
19 order. The court shall reverse, modify or remand the order only if it finds:

20 “(a) The order to be unlawful in substance or procedure, but **an** error in procedure [*shall not*  
21 *be*] **is not** cause for reversal, modification or remand unless the court [*shall find*] **finds** that sub-  
22 stantial rights of any party were prejudiced thereby;

23 “(b) The order to be unconstitutional;

24 “(c) The order is invalid because it exceeds the statutory authority of the agency; or

25 “(d) The order is not supported by substantial evidence in the whole record.

27 agency or special district would be bringing itself into compliance with the commission’s order un-  
28 der ORS 197.320 or subsection (2) of this section it would be contrary to the public interest in the  
29 conservation or sound development of land to allow the continuation of some or all categories of  
30 land use decisions or limited land use decisions, it shall, as part of its order, limit, prohibit or re-  
31 quire the approval by the local government of applications for subdivisions, partitions, building  
32 permits, limited land use decisions or land use decisions until the plan, land use regulation or sub-  
33 sequent land use decisions and limited land use decisions are brought into compliance. The com-  
34 mission may issue an order that requires review of local decisions by a hearings officer or the  
35 Department of Land Conservation and Development before the local decision becomes final.

36 “(b) Any requirement under this subsection may be imposed only if the commission finds that  
37 the activity, if continued, aggravates the goal, comprehensive plan or land use regulation violation  
38 and that the requirement is necessary to correct the violation.

39 “(c) The limitations on enforcement orders under subsection (1)(c)(B) of this section [*shall not*  
40 *be interpreted to*] **does not** affect the commission’s authority to limit, prohibit or require application  
41 of specified criteria to subsequent land use decisions involving land use approvals issued by a local  
42 government prior to the date of adoption of the enforcement order.

43 “(4) As part of its order under ORS 197.320 or subsection (2) of this section, the commission may  
44 withhold grant funds from the local government to which the order is directed. As part of an order  
45 issued under this section, the commission may notify the officer responsible for disbursing state-

1 shared revenues to withhold that portion of state-shared revenues to which the local government is  
2 entitled under ORS 221.770, 323.455, 366.762 and 366.800 and ORS chapter 471 which represents the  
3 amount of state planning grant moneys previously provided the local government by the commission.  
4 The officer responsible for disbursing state-shared revenues shall withhold state-shared revenues as  
5 outlined in this section and shall release funds to the local government or department when notified  
6 to so do by the commission or its designee. The commission may retain a portion of the withheld  
7 revenues to cover costs of providing services incurred under the order, including use of a hearings  
8 officer or staff resources to monitor land use decisions and limited land use decisions or conduct  
9 hearings. The remainder of the funds withheld under this provision shall be released to the local  
10 government upon completion of requirements of the commission order.

11 “(5)(a) As part of its order under this section, the commission may notify the officer responsible  
12 for disbursing funds from any grant or loan made by a state agency to withhold such funds from a  
13 special district to which the order is directed. The officer responsible for disbursing funds shall  
14 withhold funds as outlined in this section and shall release funds to the special district or depart-  
15 ment when notified to do so by the commission.

16 “(b) The commission may retain a portion of the funds withheld to cover costs of providing  
17 services incurred under the order, including use of a hearings officer or staff resources to monitor  
18 land use decisions and limited land use decisions or conduct hearings. The remainder of the funds  
19 withheld under this provision shall be released to the special district upon completion of the re-  
20 quirements of the commission order.

21 “(6) **As part of its order under this section, upon finding a city failed to comply with ORS**  
22 **197.320 (13), the commission may, consistent with the principles in ORS 197.293 (1), require**  
23 **the city to:**

24 “(a) **Comply with the housing acceleration agreement under ORS 197.293 (6).**

25 “(b) **Take specific actions that are part of the city’s housing production strategy under**  
26 **ORS 197.290.**

27 “(c) **Impose appropriate models that have been developed by department, including model**  
28 **ordinances, procedures, actions or anti-displacement measures.**

29 “(d) **Reduce maximum timelines for review of needed housing or specific types of housing**  
30 **or affordability levels, including through ministerial approval or any other expedited existing**  
31 **approval process.**

32 “(e) **Take specific actions to waive or amend local ordinances.**

33 “(f) **Forfeit grant funds under subsection (4) of this section.**

34 “[6] (7) The commission may institute actions or proceedings for legal or equitable remedies  
35 in the Circuit Court for Marion County or in the circuit court for the county to which the  
36 commission’s order is directed or within which all or a portion of the applicable city is located to  
37 enforce compliance with the provisions of any order issued under this section or to restrain vio-  
38 lations thereof. Such actions or proceedings may be instituted without the necessity of prior agency  
39 notice, hearing and order on an alleged violation.

40 “**SECTION 18. The amendments to ORS 197.293, 197.319, 197.320 and 197.335 by sections**

6 **“SECTION 20.** Sections 8, 13 and 21 to 23 of this 2023 Act are added to and made a part  
7 of ORS 197.286 to 197.314.

8 **“SECTION 21.** (1) This section applies only to cities that are not within Metro or de-  
9 scribed in section 22 (1) of this 2023 Act.

10 **“(2) The actions required under subsection (3) of this section must be undertaken:**

11 **“(a) At periodic review pursuant to ORS 197.628 to 197.651;**

12 **“(b) On a schedule established by the Land Conservation and Development Commission**  
13 **for cities with a population of 10,000 or greater, not to exceed once each eight years;**

14 **“(c) At any other legislative review of the comprehensive plan that requires the applica-**  
15 **tion of a statewide planning goal related to buildable lands for residential use; or**

16 **“(d) At the election of a city with a population of less than 10,000.**

17 **“(3) A city shall, according to rules of the commission:**

18 **“(a) Determine its needed housing under section 23 of this 2023 Act;**

19 **“(b) Inventory the supply of buildable lands available within the urban growth boundary**  
20 **to accommodate needed housing; and**

21 **“(c) Take any necessary actions described in ORS 197.290 (3), whether or not the actions**  
22 **are described within the city’s housing production strategy, to accommodate needed housing.**

23 **“SECTION 22.** (1) This section applies only to local governments with jurisdiction over  
24 lands inside the urban growth boundary of:

25 **“(a) Cities located outside Metro with a population of 25,000 or greater; and**

26 **“(b) Cities that meet factors established by Land Conservation and Development Com-**  
27 **mission in consideration of the city’s size, rate of population growth or proximity to another**  
28 **city with a population of 25,000 or greater or to Metro.**

29 **“(2) A local government shall determine its needed housing under section 23 of this 2023**  
30 **Act and inventory its buildable lands and determine the lands’ housing capacity under this**  
31 **section:**

32 **“(a) At periodic review under ORS 197.628 to 197.651;**

33 **“(b) As scheduled by the commission at least once each eight years; or**

34 **“(c) At any other legislative review of the comprehensive plan that concerns the urban**  
35 **growth boundary and requires the application of a statewide planning goal related to**  
36 **buildable lands for residential use.**

37 **“(3) For the purpose of determining housing capacity and inventory of buildable lands**  
38 **under subsection (2) of this section:**

39 **“(a) ‘Buildable lands’ includes:**

40 **“(A) Vacant lands planned or zoned for residential use;**

41 **“(B) Partially vacant lands planned or zoned for residential use;**

42 **“(C) Lands that may be used for a mix of residential and employment uses under the**  
43 **existing planning or zoning; and**

44 **“(D) Lands that may be used for residential infill or redevelopment.**

45 **“(b) The local government shall consider:**

1       “(A) The extent that residential development is prohibited or restricted by local regu-  
2 lation and ordinance, state law and rule or federal statute and regulation;

3       “(B) A written long term contract or easement for radio, telecommunications or elec-  
4 trical facilities, if the written contract or easement is provided to the local government; and

5       “(C) The presence of a single family dwelling or other structure on a lot or parcel.

6       “(c) Except for land that may be used for residential infill or redevelopment, the local  
7 government shall create a map or document that may be used to verify and identify specific  
8 lots or parcels that have been determined to be buildable lands.

9       “(4)(a) Except as provided in paragraphs (b) and (c) of this subsection, the determination  
10 of housing capacity must be based on data related to land within the urban growth boundary  
11 that has been collected since the last review under subsection (2)(b) of this section. The data  
12 must include:

13       “(A) The number, density and average mix of housing types of urban residential devel-  
14 opment that have actually been developed;

15       “(B) Trends in density and average mix of housing types of urban residential develop-  
16 ment;

17       “(C) Market factors that may substantially impact future urban residential development;

18       “(D) The number, density and average mix of housing types that have been developed on  
19 buildable lands;

20       “(E) Consideration of the effects of the adopted housing production strategy and meas-  
21 ures taken and reasonably anticipated to be taken to implement the strategy; and

22       “(F) Consideration of factors that influence available housing supply, including short-  
23 term rentals, second homes and vacation homes.

24       “(b) A local government shall make the determination described in paragraph (a) of this  
25 subsection using data from a shorter time period than the time period described in paragraph  
26 (a) of this subsection if the local government finds that the shorter time period will provide  
27 more accurate and reliable data related to housing capacity. The shorter time period may  
28 not be less than three years.

29       “(c) A local government shall use data from a wider geographic area or use a time period  
30 longer than the time period described in paragraph (a) of this subsection if the analysis of a  
31 wider geographic area or the use of data from a longer time period will provide more accu-  
32 rate, complete and reliable data related to trends affecting housing need than an analysis  
33 performed pursuant to paragraph (a) of this subsection. The local government must clearly  
34 describe the geographic area, time frame and source of data used in a determination per-  
35 formed under this paragraph.

36       “(5) If the needed housing is greater than the housing capacity, the local government  
37 shall take one or both of the following actions to accommodate allocated housing need for  
38 the next 20 years:

39       “(a) Amend its urban growth boundary to include sufficient buildable lands to accommo-  
40 date allocated housing need for the next 20 years consistent with the requirements of ORS  
41 197A.320 and statewide planning goals. As part of this process, the local government shall  
42 consider the effects of actions taken pursuant to paragraph (b) of this subsection. The  
43 amendment must include sufficient land reasonably necessary to accommodate the siting of  
44 new public school facilities. The need and inclusion of lands for new public school facilities  
45 must be a coordinated process between the affected public school districts and the local

1 government that has the authority to approve the urban growth boundary.

2 “(b) Take any action under ORS 197.290 (3), whether or not the action was described in  
3 an approved housing production strategy, that demonstrably increases housing capacity or  
4 produces additional needed housing. Actions under this paragraph may include amending a  
5 comprehensive plan or land use regulations to include new measures that demonstrably in-  
6 crease the likelihood that residential development will occur at densities sufficient to ac-  
7 commodate needed housing for the next 20 years without expansion of the urban growth  
8 boundary.

9 “(6) A local government that takes any actions under subsection (5) of this section shall:

10 “(a) Demonstrate that the comprehensive plan and land use regulations comply with  
11 goals and rules adopted by the commission.

12 “(b) Adopt findings regarding the changes in housing capacity assumed to result from  
13 actions adopted based on data collected under subsection (4)(a) of this section. The density  
14 expectations may not project an increase in residential capacity above achieved density by  
15 more than three percent without quantifiable validation of such departures. A quantifiable  
16 validation must demonstrate that the assumed housing capacity has been achieved in areas  
17 that are zoned to allow no greater than the same authorized density level, as defined in ORS  
18 227.175, within the local government’s jurisdiction or a jurisdiction in the same region.

19 “(c) In establishing that actions adopted under subsection (5) of this section  
20 demonstrably increase housing capacity, ensure that buildable lands are in locations appro-  
21 priate for needed housing, are zoned at density ranges that are likely to be achieved by the  
22 housing market and are in areas where sufficient urban services are planned to enable the  
23 higher density development to occur over the 20-year period.

24 “SECTION 23. (1) As used in ORS 197.286 to 197.314, and except as provided in subsection  
25 (2) of this section:

26 “(a) ‘Needed housing’ means housing by affordability level, as described in section 2 (4)  
27 of this 2023 Act, type, characteristics and location that is necessary to accommodate the  
28 city’s allocated housing need over the 20-year planning period in effect when the city’s  
29 housing capacity is determined.

30 “(b) ‘Needed housing’ includes the following housing types:

31 “(A) Detached single-family housing, middle housing types as described in ORS 197.758  
32 and multifamily housing that is owned or rented;

33 “(B) Government assisted housing;

34 “(C) Mobile home or manufactured dwelling parks as provided in ORS 197.475 to 197.490;

35 “(D) Manufactured homes on individual lots planned and zoned for single-family residen-  
36 tial use that are in addition to lots within designated manufactured dwelling subdivisions;

37 “(E) Housing for agricultural workers;

38 “(F) Housing for individuals with a variety of disabilities, related to mobility or commu-  
39 nications that require accessibility features;

40 “(G) Housing for older persons, as defined in ORS 659A.421; and

41 “(H) Housing for college or university students, if relevant to the region.

42 “(2) Subsection (1)(b)(A) and (D) of this section does not apply to:

43 “(a) A city with a population of less than 2,500.

44 “(b) A county with a population of less than 15,000.

45 “(3) At the time that a city is required to inventory its buildable lands under ORS 197.297

1 (1) or section 21 or 22 of this 2023 Act, the city shall determine its needed housing under this  
2 section.

3 “(4) In determining needed housing the city must demonstrate that the projected housing  
4 types, characteristics and locations are:

5 “(a) Attainable for the allocated housing need by income, including consideration of  
6 publicly supported housing;

7 “(b) Appropriately responsive to current and projected market trends; and

8 “(c) Responsive to the factors in ORS 197.290 (2)(b) to (d).

9 “**SECTION 24.** ORS 197A.320 is amended to read:

10 “197A.320. (1) [Notwithstanding the priority in ORS 197.298 for inclusion of land within an urban  
11 growth boundary,] A city outside [of] Metro shall comply with this section when determining which  
12 lands to include within the urban growth boundary of the city, **including when amending an urban**  
13 **growth boundary under ORS** [pursuant to ORS 197.286 to 197.314,] 197A.310 or 197A.312 **or sec-**  
14 **tion 22 (5)(a) of this 2023 Act.**

15 “(2) The Land Conservation and Development Commission shall provide, by rule, that:

16 “(a) When evaluating lands for inclusion within the urban growth boundary, the city shall es-  
17 tablish a study area that includes all land that is contiguous to the urban growth boundary and  
18 within a distance specified by commission.

19 “(b) The city shall evaluate all land in the study area for inclusion in the urban growth bound-  
20 ary as provided in subsection (4) of this section, except for land excluded from the study area be-  
21 cause:

22 “(A) It is impracticable, as provided in subsection (3) of this section, to provide necessary public  
23 facilities or services to the land.

24 “(B) The land is subject to significant development hazards, including a risk of land slides, a risk  
25 of flooding because the land is within the 100-year floodplain or is subject to inundation during  
26 storm surges or tsunamis, and other risks determined by the commission.

27 “(C) The long-term preservation of significant scenic, natural, cultural or recreational resources  
28 requires limiting or prohibiting urban development of the land that contains the resources.

29 “(D) The land is owned by the federal government and managed primarily for rural uses.

30 “**(E) The land is designated as rural reserve under ORS 195.137 to 195.145.**

31 “(c) When evaluating the priority of land for inclusion under paragraph (b) of this subsection:

32 “(A) The city shall evaluate the land within the study area that is designated as an urban re-  
33 serve under ORS 195.145 in an acknowledged comprehensive plan[.].

34 “**(B) If the amount of land appropriate for selection under subparagraph (A) of this par-**  
35 **agraph is not sufficient to satisfy the need for the land, the city shall evaluate the** land that  
36 is subject to an acknowledged exception under ORS 197.732 or land that is nonresource land and  
37 select as much of the land as necessary to satisfy the need for land using criteria established by the  
38 commission and criteria in an acknowledged comprehensive plan and land use regulations.

39 “[*B*] (C) If the amount of land appropriate for selection under [*subparagraph (A)*] **subpara-**  
40 **graphs (A) and (B)** of this paragraph is not sufficient to satisfy the need for land, the city shall  
41 evaluate the land within the study area that is designated as marginal land under ORS 197.247 (1991  
42 Edition) in the acknowledged comprehensive plan and select as much of the land as necessary to  
43 satisfy the need for land using criteria established by the commission and criteria in an acknowl-  
44 edged comprehensive plan and land use regulations.

45 “[*C*] **(D)** If the amount of land appropriate for selection under subparagraphs (A) [*and (B)*] **to**

1 (C) of this paragraph is not sufficient to satisfy the amount of land needed, the city shall evaluate  
2 land within the study area that is designated for agriculture or forest uses in the acknowledged  
3 comprehensive plan that is not predominantly high-value farmland, as defined in ORS 195.300, or  
4 does not consist predominantly of prime or unique soils, as determined by the United States De-  
5 partment of Agriculture Natural Resources Conservation Service, and select as much of that land  
6 as necessary to satisfy the need for land:

7 “(i) Using criteria established by the commission and criteria in an acknowledged comprehensive  
8 plan and land use regulations; and

9 “(ii) Using the predominant capability classification system or the predominant cubic site class,  
10 as appropriate for the acknowledged comprehensive plan designation, to select lower capability or  
11 cubic site class lands first.

12 “[D)] (E) If the amount of land appropriate for selection under subparagraphs (A) to [(C)] (D)  
13 of this paragraph is not sufficient to satisfy the need for land, the city shall evaluate land within  
14 the study area that is designated as agricultural land in an acknowledged comprehensive plan and  
15 is predominantly high value farmland and select as much of that land as necessary to satisfy the  
16 need for land. A local government may not select land that is predominantly made up of prime or  
17 unique farm soils, as defined by the United States Department of Agriculture Natural Resources  
18 Conservation Service, unless there is an insufficient amount of other land to satisfy its land need.

19 “(3) For purposes of subsection (2)(b)(A) of this section, the commission shall determine  
20 impracticability by rule, considering the likely amount of development that could occur on the lands  
21 within the planning period, the likely cost of facilities and services, physical, topographical or other  
22 impediments to service provision and whether urban development has occurred on similarly situated  
23 lands such that it is likely that the lands will be developed at an urban level during the planning  
24 period. When impracticability is primarily a result of existing development patterns, the rules of the  
25 commission shall require that the lands be included within the study area, but may allow the de-  
26 velopment capacity forecast for the lands to be specified at a lower level over the planning period.  
27 The rules of the commission must be based on an evaluation of how similarly situated lands have,  
28 or have not, developed over time.

29 “(4) For purposes of subsection (2)(b)(C) of this section, the commission by rule shall determine  
30 the circumstances in which and the resources to which this exclusion will apply.

31 “(5) Notwithstanding subsection [(2)(c)(D)] (2)(c)(E) of this section, the rules must allow land  
32 that would otherwise be excluded from an urban growth boundary to be included if:

33 “(a) The land contains a small amount of resource land that is not important to the commercial  
34 agricultural enterprise in the area and the land must be included to connect a nearby and signif-  
35 icantly larger area of land of higher priority for inclusion within the urban growth boundary; or

36 “(b) The land contains a small amount of resource land that is not predominantly high-value  
37 farmland or predominantly made up of prime or unique farm soils and the land is completely sur-  
38 rounded by land of higher priority for inclusion into the urban growth boundary.

39 “(6) When the primary purpose for expansion of the urban growth boundary is to accommodate  
40 a particular industry use that requires specific site characteristics, or to accommodate a public fa-  
41 cility that requires specific site characteristics and the site characteristics may be found in only a  
42 small number of locations, the city may limit the study area to land that has, or could be improved  
43 to provide, the required site characteristics. Lands included within an urban growth boundary for  
44 a particular industrial use, or a particular public facility, must remain planned and zoned for the  
45 intended use:

1 “(a) Except as allowed by rule of the commission that is based on a significant change in cir-  
2 cumstance or the passage of time; or

3 “(b) Unless the city removes the land from within the urban growth boundary.

4 “(7) Notwithstanding any other provision of this section, the commission may adopt rules that  
5 specify circumstances under which a city may exchange land within the urban growth boundary of  
6 the city for land that is outside of the urban growth boundary and that is designed to avoid adverse  
7 effects of an exchange on agricultural or forest operations in the surrounding area.

9 **“METRO URBANIZATION**

10  
11 **“SECTION 25.** ORS 197.296 is amended to read:

12 **“197.296. (1) This section applies only to Metro.**

13 *“[(1)(a) The provisions of subsections (2) to (9) of this section apply to metropolitan service district*  
14 *regional framework plans and local government comprehensive plans for lands within the urban growth*  
15 *boundary of a city that is located outside of a metropolitan service district and has a population of*  
16 *25,000 or more.]*

17 *“[(b) The Land Conservation and Development Commission may establish a set of factors under*  
18 *which additional cities are subject to the provisions of this section. In establishing the set of factors*  
19 *required under this paragraph, the commission shall consider the size of the city, the rate of population*  
20 *growth of the city or the proximity of the city to another city with a population of 25,000 or more or*  
21 *to a metropolitan service district.]*

22 **“(2)(a) [A local government] Metro** shall demonstrate that its *[comprehensive plan or]* regional  
23 framework plan provides sufficient buildable lands within the urban growth boundary established  
24 pursuant to statewide planning goals to accommodate estimated housing needs for 20 years:

25 **“(A)** At periodic review under ORS 197.628 to 197.651;

26 **“(B)** As scheduled by the **Land Conservation and Development** Commission[:]

27 *“[(i) at least once each eight years for local governments that are not within a metropolitan service*  
28 *district; or]*

29 *“[(ii)] at least once each six years [for a metropolitan service district]; or*

30 **“(C)** At any other legislative review of the *[comprehensive plan or]* regional framework plan that  
31 concerns the urban growth boundary and requires the application of a statewide planning goal re-  
32 lating to buildable lands for residential use.

33 **“(b)** The 20-year period shall commence on the date initially scheduled for completion of the  
34 review under paragraph (a) of this subsection.

35 **“(3)** In performing the duties under subsection (2) of this section, *[a local government]* **Metro**  
36 shall:

37 **“(a)** Inventory the supply of buildable lands within the urban growth boundary and determine  
38 the housing capacity of the buildable lands; and

39 **“(b)** Conduct an analysis of existing and projected housing need by type and density range, in  
40 accordance with all factors under ORS 197.303 and statewide planning goals and rules relating to  
41 housing, to determine the number of units and amount of land needed for each needed housing type  
42 for the next 20 years.

43 **“(4)(a)** For the purpose of the inventory described in subsection (3)(a) of this section, ‘buildable  
44 lands’ includes:

45 **“(A)** Vacant lands planned or zoned for residential use;

1 “(B) Partially vacant lands planned or zoned for residential use;

2 “(C) Lands that may be used for a mix of residential and employment uses under the existing  
3 planning or zoning; and

4 “(D) Lands that may be used for residential infill or redevelopment.

5 “(b) For the purpose of the inventory and determination of housing capacity described in sub-  
6 section (3)(a) of this section, [*the local government*] **Metro** must demonstrate consideration of:

7 “(A) The extent that residential development is prohibited or restricted by local regulation and  
8 ordinance, state law and rule or federal statute and regulation;

9 “(B) A written long term contract or easement for radio, telecommunications or electrical fa-  
10 cilities, if the written contract or easement is provided to [*the local government*]; and] **Metro**;

11 “(C) The presence of a single family dwelling or other structure on a lot or parcel[.]; and

12 “(D) **Factors that influence available housing supply, including short-term rentals, second**  
13 **homes and vacation homes.**

14 “(c) Except for land that may be used for residential infill or redevelopment, [*a local*  
15 *government*] **Metro** shall create a map or document that may be used to verify and identify specific  
16 lots or parcels that have been determined to be buildable lands.

17 “(5)(a) Except as provided in paragraphs (b) and (c) of this subsection, the determination of  
18 housing capacity pursuant to subsection (3)(a) of this section must be based on data relating to land  
19 within the urban growth boundary that has been collected since the last review under subsection  
20 (2)(a)(B) of this section. The data shall include:

21 “(A) The number, density and average mix of housing types of urban residential development  
22 that have actually occurred;

23 “(B) Trends in density and average mix of housing types of urban residential development;

24 “(C) Market factors that may substantially impact future urban residential development; and

25 “(D) The number, density and average mix of housing types that have occurred on the buildable  
26 lands described in subsection (4)(a) of this section.

27 “(b) [*A local government*] **Metro** shall make the determination described in paragraph (a) of this  
28 subsection using a shorter time period than the time period described in paragraph (a) of this sub-  
29 section if [*the local government*] **Metro** finds that the shorter time period will provide more accurate  
30 and reliable data related to housing capacity. The shorter time period may not be less than three  
31 years.

32 “(c) [*A local government*] **Metro** shall use data from a wider geographic area or use a time pe-  
33 riod longer than the time period described in paragraph (a) of this subsection if the analysis of a  
34 wider geographic area or the use of a longer time period will provide more accurate, complete and  
35 reliable data relating to trends affecting housing need than an analysis performed pursuant to par-  
36 agraph (a) of this subsection. [*The local government*] **Metro** must clearly describe the geographic  
37 area, time frame and source of data used in a determination performed under this paragraph.

38 “(6) If the housing need determined pursuant to subsection (3)(b) of this section is greater than  
39 the housing capacity determined pursuant to subsection (3)(a) of this section, [*the local government*]  
40 **Metro** shall take one or both of the following actions to accommodate the additional housing need:

41 “(a) Amend its urban growth boundary to include sufficient buildable lands to accommodate  
42 housing needs for the next 20 years. As part of this process, [*the local government*] **Metro** shall  
43 consider the effects of measures taken pursuant to paragraph (b) of this subsection. The amendment  
44 shall include sufficient land reasonably necessary to accommodate the siting of new public school  
45 facilities. The need and inclusion of lands for new public school facilities shall be a coordinated

1 process between the affected public school districts and [*the local government*] **Metro** that has the  
2 authority to approve the urban growth boundary.

3 “(b) Amend its [*comprehensive plan,*] regional framework plan, functional plan or land use regu-  
4 lations to include new measures that demonstrably increase the likelihood that residential develop-  
5 ment will occur at densities sufficient to accommodate housing needs for the next 20 years without  
6 expansion of the urban growth boundary. [*A local government or metropolitan service district that*]  
7 **If Metro** takes this action, **Metro** shall adopt findings regarding the density expectations assumed  
8 to result from measures adopted under this paragraph based upon the factors listed in ORS 197.303  
9 (2) and data in subsection (5)(a) of this section. The density expectations may not project an increase  
10 in residential capacity above achieved density by more than three percent without quantifiable val-  
11 idation of such departures. [*For a local government located outside of a metropolitan service district,*  
12 *a quantifiable validation must demonstrate that the assumed housing capacity has been achieved in*  
13 *areas that are zoned to allow no greater than the same authorized density level within the local juris-*  
14 *isdiction or a jurisdiction in the same region. For a metropolitan service district,]* A quantifiable vali-  
15 dation must demonstrate that the assumed housing capacity has been achieved in areas **within**  
16 **Metro** that are zoned to allow no greater than the same authorized density level, **as defined in**  
17 **ORS 227.175** [*within the metropolitan service district*].

18 “[*(c) As used in this subsection, ‘authorized density level’ has the meaning given that term in ORS*  
19 *227.175.*]

20 “(7) Using the housing need analysis conducted under subsection (3)(b) of this section, [*the local*  
21 *government*] **Metro** shall determine the overall average density and overall mix of housing types at  
22 which residential development of needed housing types must occur in order to meet housing needs  
23 over the next 20 years. If that density is greater than the actual density of development determined  
24 under subsection (5)(a)(A) of this section, or if that mix is different from the actual mix of housing  
25 types determined under subsection (5)(a)(A) of this section, [*the local government*] **Metro**, as part of  
26 its periodic review, shall adopt measures that demonstrably increase the likelihood that residential  
27 development will occur at the housing types and density and at the mix of housing types required  
28 to meet housing needs over the next 20 years.

29 “(8)(a) [*A local government outside a metropolitan service district that*] **If Metro** takes any actions  
30 under subsection (6) or (7) of this section, **Metro** shall demonstrate that the comprehensive plan and  
31 land use regulations comply with goals and rules adopted by the commission and implement ORS  
32 197.286 to 197.314.

33 “(b) [*A local government*] **Metro** shall determine the density and mix of housing types anticipated  
34 as a result of actions taken under subsections (6) and (7) of this section and monitor and record the  
35 actual density and mix of housing types achieved following the adoption of these actions. [*The local*  
36 *government*] **Metro** shall compare actual and anticipated density and mix. [*The local government*]  
37 **Metro** shall submit its comparison to the commission at the next review of its urban growth  
38 boundary under subsection (2)(a) of this section.

39 “(9) In establishing that actions and measures adopted under subsections (6) and (7) of this sec-  
40 tion demonstrably increase the likelihood of higher density residential development, [*the local gov-*  
41 *ernment*] **Metro** shall at a minimum ensure that land zoned for needed housing is in locations  
42 appropriate for the housing types identified under subsection (3) of this section, is zoned at density  
43 ranges that are likely to be achieved by the housing market using the analysis in subsection (3) of  
44 this section and is in areas where sufficient urban services are planned to enable the higher density  
45 development to occur over the 20-year period. Actions or measures, or both, may include [*but are*

1 *not limited to:] those actions listed in ORS 197.290 (3).*

2 *“(a) Increases in the permitted density on existing residential land;]*

3 *“(b) Financial incentives for higher density housing;]*

4 *“(c) Provisions permitting additional density beyond that generally allowed in the zoning district*  
5 *in exchange for amenities and features provided by the developer;]*

6 *“(d) Removal or easing of approval standards or procedures;]*

7 *“(e) Minimum density ranges;]*

8 *“(f) Redevelopment and infill strategies;]*

9 *“(g) Authorization of housing types not previously allowed by the plan or regulations;]*

10 *“(h) Adoption of an average residential density standard; and]*

11 *“(i) Rezoning or redesignation of nonresidential land.]*

12 *“(10)(a) The provisions of this subsection apply to local government comprehensive plans for lands*  
13 *within the urban growth boundary of a city that is located outside of a metropolitan service district*  
14 *and has a population of less than 25,000.]*

15 *“(b) As required under paragraph (c) of this subsection, a city shall, according to rules of the*  
16 *commission:]*

17 *“(A) Determine the estimated housing needs within the jurisdiction for the next 20 years;]*

18 *“(B) Inventory the supply of buildable lands available within the urban growth boundary to ac-*  
19 *commodate the estimated housing needs determined under this subsection; and]*

20 *“(C) Adopt measures necessary to accommodate the estimated housing needs determined under this*  
21 *subsection.]*

22 *“(c) The actions required under paragraph (b) of this subsection shall be undertaken:]*

23 *“(A) At periodic review pursuant to ORS 197.628 to 197.651;]*

24 *“(B) On a schedule established by the commission for cities with a population greater than 10,000,*  
25 *not to exceed once each eight years; or]*

26 *“(C) At any other legislative review of the comprehensive plan that requires the application of a*  
27 *statewide planning goal relating to buildable lands for residential use.]*

28 *“(d) For the purpose of the inventory described in this subsection, ‘buildable lands’ includes those*  
29 *lands described in subsection (4)(a) of this section.]*

30 *“(11) If a city with a population of 10,000 or less conducts an inventory of the supply of buildable*  
31 *lands or an estimate of housing need, it must satisfy the requirements of subsection (10) of this*  
32 *section.]*

33 **“SECTION 26.** ORS 197.297 is amended to read:

34 **“197.297. (1) At least once every six years, by a date scheduled by the Land Conservation and**  
35 **Development Commission, a city that is within [a metropolitan service district] Metro and has a**  
36 **population of 10,000 or greater [than 10,000] shall:**

37 **“(a) Inventory the supply of buildable lands within the city and determine the housing capacity**  
38 **of the buildable lands; and**

39 **“(b) Conduct an analysis of the city’s existing and projected needed housing under statewide**  
40 **planning goals and rules related to housing by type, mix, affordability and density range to deter-**  
41 **mine the number of units and amount of land needed for each needed housing type under section**  
42 **23 of this 2023 Act for the next 20 years.**

43 **“(2) The housing capacity determination and the needed housing analysis conducted under this**  
44 **section must be adopted as part of the city’s comprehensive plan no later than one year after com-**  
45 **pletion of the needed housing analysis.**

1 “(3) If the housing capacity and needed housing analysis conducted under this section demon-  
2 strates a housing need, the city shall amend its comprehensive plan or land use regulations **or take**  
3 **actions to update or implement its housing production strategy** to include new measures that  
4 demonstrably increase the likelihood that development of needed housing will occur for the type,  
5 mix, affordability and densities sufficient to accommodate needed housing for the next 20 years.

6 “**SECTION 27.** ORS 197.303 is amended to read:

7 “197.303. (1) As used in ORS [197.286 to 197.314] **197.296 and this section**, ‘needed housing’  
8 means all housing on land zoned for residential use or mixed residential and commercial use that  
9 is determined to meet the need shown for housing within an urban growth boundary at price ranges  
10 and rent levels that are affordable to households within the county with a variety of incomes, in-  
11 cluding but not limited to households with low incomes, very low incomes and extremely low in-  
12 comes, as those terms are defined by the United States Department of Housing and Urban  
13 Development under 42 U.S.C. 1437a. ‘Needed housing’ includes the following housing types:

14 “(a) Attached and detached single-family housing, **middle housing types as described in ORS**  
15 **197.758** and multiple family housing for both owner and renter occupancy;

16 “(b) Government assisted housing;

17 “(c) Mobile home or manufactured dwelling parks as provided in ORS 197.475 to 197.490;

18 “(d) Manufactured homes on individual lots planned and zoned for single-family residential use  
19 that are in addition to lots within designated manufactured dwelling subdivisions; [and]

22 **cations that require accessibility features;**

23 “(g) **Housing for older persons, as defined in ORS 659A.421; and**

24 “(h) **Housing for college or university students, if relevant to the region.**

25 “(2) For the purpose of estimating housing needs, as described in ORS 197.296 (3)(b), [a local  
26 government shall use the population projections prescribed by ORS 195.033 or 195.036 and shall con-  
27 sider and adopt findings related to changes in] **Metro shall adopt findings and perform an analysis**  
28 **that estimates** each of the following factors [since the last review under ORS 197.296 (2)(a)(B) and  
29 the projected future changes in these factors over a 20-year planning period]:

30 “[a] Household sizes;]

31 “[b] Household demographics;]

32 “[c] Household incomes;]

33 “[d] Vacancy rates; and]

34 “[e] Housing costs.]

35 “(a) **Projected needed housing units over the next 20 years;**

36 “(b) **Current housing underproduction;**

37 “(c) **Housing units needed for people experiencing homelessness; and**

38 “(d) **Housing units projected to be converted into vacation homes or second homes during**  
39 **the next 20 years.**

40 “(3) **At the time Metro performs the analysis under subsection (2) of this section, Metro**  
41 **shall allocate a housing need for each city within Metro.**

42 “(4) **In making an allocation under subsection (3) of this section, Metro shall consider:**

43 “(a) **The forecasted population growth under ORS 195.033 or 195.036;**

44 “(b) **The forecasted regional job growth;**

45 “(c) **An equitable statewide distribution of housing for income levels described in section**

19 development; and

20 “[*f*] **(d)** The location chosen for the proposed development is located within an area designated

24 boundary is warranted, *[the metropolitan service district]* **Metro** may take action to expand its urban  
25 growth boundary in one or more locations to accommodate the proposed development, provided the  
26 urban growth boundary expansion does not exceed a total of 1,000 acres.

31 “(3) [*When a need has been shown for housing within an urban growth boundary at particular*  
32 *price ranges and rent levels, needed housing shall be permitted*] **A local government shall permit**  
33 **needed housing** in one or more zoning districts or in zones described by some comprehensive plans  
34 as overlay zones with sufficient buildable land to satisfy that need.

41 housing through unreasonable cost or delay.

42 “(5) The provisions of subsection (4) of this section do not apply to:

43 “(a) An application or permit for residential development in an area identified in a formally  
44 adopted central city plan, or a regional center as defined by Metro, in a city with a population of

1 “(b) An application or permit for residential development in historic areas designated for pro-  
2 tection under a land use planning goal protecting historic areas.

3 “(6) In addition to an approval process for needed housing based on clear and objective stan-

5 may adopt and apply an alternative approval process for applications and permits for residential  
6 development based on approval criteria regulating, in whole or in part, appearance or aesthetics  
7 that are not clear and objective if:

8 “(a) The applicant retains the option of proceeding under the approval process that meets the  
9 requirements of subsection (4) of this section;

10 “(b) The approval criteria for the alternative approval process comply with applicable statewide  
11 land use planning goals and rules; and

12 “(c) The approval criteria for the alternative approval process authorize a density at or above  
13 the density level authorized in the zone under the approval process provided in subsection (4) of this  
14 section.

15 “(7) Subject to subsection (4) of this section, this section does not infringe on a local

17 “(a) Set approval standards under which a particular housing type is permitted outright;

18 “(b) Impose special conditions upon approval of a specific development proposal; or

19 “(c) Establish approval procedures.

8 subsection shall be the sole issue to be determined at the hearing.

9 “(c) No criteria or standards established under paragraph (a) of this subsection [*shall*] **may** be

15 this section, shall consider:

16 “(a) The projected costs and other consequences of extending urban services to the affected lot  
17 or parcel;

18 “(b) The potential value in the investment of providing urban services to the affected lot or  
19 parcel;

36 provisions of the ordinance shall demonstrate that the approval standards, conditions and proce-  
37 dures are capable of being imposed only in a clear and objective manner.

38 “**SECTION 91.** ORS 197A.300 to 197A.325 are added to and made a part of ORS 197.286 to  
39 197.314.

1 available or can be either provided or made subject to committed financing; or

2 “[(b)] (2) Committed financing can be in place to provide adequate sewer, water and transpor-  
3 tation capacity for planned urban development.

4 “**SECTION 93.** ORS 197A.310 is amended to read:

5 “197A.310. (1) [In addition to and not in lieu of] **As an alternative to** the method prescribed in

7 **Act**, the Land Conservation and Development Commission shall adopt a method by which a city  
8 outside Metro that has a population of less than 10,000 may evaluate or amend its urban growth  
9 boundary.

10 “(2) The commission shall design the method so that:

11 “(a) A city using the method:

12 “(A) Will have within its boundaries sufficient buildable lands and other development capacity,  
13 including land and capacity for needed housing and employment opportunities, to meet the growth  
14 in population and employment forecast to occur over a 14-year period.

15 “(B) Will not become less efficient in its use of land as a result of a change to the urban growth  
16 boundary.

17 “(b) The urban population per square mile will continue, subject to market conditions, to in-  
18 crease over time on a statewide basis and in major regions of the state, including that portion of  
19 the Willamette Valley outside of Metro.

20 “(c) The rate of conversion of agricultural and forest lands to urban uses does not increase over  
21 time in any major region of the state.

22 “(3) Under the method adopted by the commission:

23 “(a) A city’s determination of the amount of buildable lands [needed for] **sufficient for needed**  
24 housing, employment and other urban uses must be based on the population and employment growth  
25 forecast to occur over a 14-year period.

26 “(b) A city’s determination of the supply and development capacity of lands within its urban  
27 growth boundary must be based on:

28 “(A) A simple inventory of vacant and partially vacant buildable lands within the urban growth  
29 boundary;

30 “(B) The comprehensive plan designation and the zoning of the portion of the buildable lands  
31 that is urban; and

32 “(C) Simple factors established by the commission for forecasting:

33 “(i) The development and redevelopment capacity of urbanizable lands within the urban growth  
34 boundary; and

35 “(ii) The redevelopment capacity of developed urban lands within the urban growth boundary.

36 “(c) A city’s determination of the supply and development capacity of lands the city proposes  
37 to include within the urban growth boundary must be based on:

38 “(A) A simple inventory of vacant and partially vacant lands; and

39 “(B) Simple factors established by the commission for forecasting the development and redevelop-  
40 ment capacity of the lands.

41 “(d) A city shall demonstrate that lands included within the urban growth boundary:

42 “(A) Include sufficient serviceable land for at least a seven-year period.

43 “(B) Can all be serviceable over a 14-year period.

44 “(e) Lands included within the urban growth boundary:

45 “(A) Must be planned and zoned for categories of land uses in amounts that are roughly pro-

1 portional to the land need determined for each category of use;

2 “(B) Must be planned and zoned for an intensity of use that is generally consistent with the  
3 estimates that were used to determine the amount of land needed;

4 “(C) Must be planned and zoned to meet the requirements for needed housing, and those re-  
5 quirements must be specified by rule of the commission in a manner that is as objective as practi-  
6 cable; and

7 “(D) May be either:

8 “(i) Planned and zoned, or otherwise conditioned, to avoid significantly affecting a state high-  
9 way, a state highway interchange or a freight route designated in the Oregon Highway Plan; or

10 “(ii) Allowed to significantly affect a state highway, a state highway interchange or a freight  
11 route designated in the Oregon Highway Plan subject to mitigation, consistent with rules of the  
12 commission, if the lands are planned and zoned for compact urban development or industrial uses.

13 “(4) For purposes of subsection (3)(a) of this section, population growth must be forecast as  
14 provided in ORS 195.033. Employment growth must be forecast based on the population growth  
15 forecast for the city or the employment growth forecast issued by the Employment Department for  
16 the county or region. The commission shall establish factors, by rule, for converting the forecasted  
17 population and employment growth into forecasts of land need for housing, employment and other  
18 categories of uses. The factors must:

19 “(a) Be based on an empirical evaluation of the relation between population and employment  
20 growth and the rate and trends of land utilization in the recent past in the applicable major region  
21 of the state;

22 “(b) Reflect consideration by the commission of any significant changes occurring or expected  
23 to occur in the markets for urban land uses in that major region of the state;

24 “(c) Be designed to encourage an increase in the land use efficiency of a city, subject to market  
25 conditions; and

26 “(d) Provide a range of policy choices for a city about the form of its future growth.

27 “(5) For purposes of subsection (3)(b) of this section, the commission shall establish factors for  
28 supply and development capacity that are:

29 “(a) Based on an empirical evaluation of the population and employment growth that has oc-  
30 curred on similarly situated lands through development and redevelopment;

31 “(b) Based on consideration by the commission of any significant changes occurring or expected  
32 to occur in the markets for urban land uses in that major region of the state;

33 “(c) Designed to encourage an increase in the land use efficiency of the city, subject to market  
34 conditions; and

35 “(d) Designed to provide a range of policy choices for a city about the form of its future growth.

36 “(6) For purposes of subsection (3)(c) of this section, the commission shall establish factors that  
37 are:

38 “(a) Based on an empirical evaluation of the population and employment growth that has oc-  
39 curred on similarly situated lands through development and redevelopment;

40 “(b) Based on consideration by the commission of any significant changes occurring or expected  
41 to occur in the markets for urban land uses in each major region of the state;

42 “(c) Designed to encourage an increase in the land use efficiency of the city, subject to market  
43 conditions; and

44 “(d) Designed to provide a range of policy choices for a city about the form of its future growth.

45 “(7) For lands that are included within an urban growth boundary pursuant to this section and

1 not made serviceable within 20 years after the date of their inclusion, the commission may provide  
2 by rule that:

3 “(a) The lands must be removed from within the urban growth boundary the next time the city  
4 evaluates the urban growth boundary; or

5 “(b) The planned development capacity of the lands must be reduced if there are significant in-  
6 creases in the cost of making the lands serviceable.

7 “(8) When lands included within the urban growth boundary pursuant to this section are planned  
8 and zoned for industrial or residential uses, the lands must remain planned and zoned for the use  
9 unless a rule of the commission allows a change in planning and zoning based on a significant  
10 change in circumstance.

11 “**SECTION 94.** ORS 197A.305 is amended to read:

12 “197A.305. (1) [*In addition to and not in lieu of*] **As an alternative to** the method prescribed in

14 **Act**, the Land Conservation and Development Commission shall adopt by rule methods by which a  
15 city that is outside Metro may evaluate or amend the urban growth boundary of the city.

16 “(2) A city outside Metro may use the methods adopted pursuant to:

17 “(a) ORS 197A.310 if the city has a population of less than 10,000.

18 “(b) ORS 197A.312 if the city has a population of 10,000 or [*more*] **greater**.

19 “(3) A city that elects to include land within the urban growth boundary of the city under a  
20 method established pursuant to ORS 197A.310 or 197A.312:

21 “(a) May use the method again when:

22 “(A) The population of the city has grown by at least 50 percent of the amount of growth fore-  
23 cast to occur in conjunction with the previous use of the method by the city; or

24 “(B) At least one-half of the lands identified as buildable lands during the previous use of the  
25 method by the city have been developed.

26 “(b) Shall evaluate whether the city needs to include within the urban growth boundary addi-  
27 tional land for residential or employment uses before the population of the city has grown by 100  
28 percent of the population growth forecast to occur in conjunction with the previous use of the  
29 method by the city.

30 “(4) A city that elects to use a method established pursuant to ORS 197A.310 or 197A.312 shall  
31 notify the Department of Land Conservation and Development of the election in the manner required  
32 by ORS 197.610 for notice of a post-acknowledgment plan amendment. The city may revoke the  
33 election until the city makes a final decision whether to amend the urban growth boundary of the  
34 city. A city that has initiated, but not completed, an amendment of its urban growth boundary before  
35 January 1, 2014, may withdraw the proposed amendment and use a method established pursuant to  
36 ORS 197A.310 or 197A.312 by filing notice of the election with the department in the manner re-  
37 quired by ORS 197.610 and 197.615 for notice of a post-acknowledgment plan amendment.

38 “(5) Beginning on or before January 1, 2023, the commission shall:

39 “(a) Evaluate, every five years, the impact of the implementation of ORS 197A.310 (2) and  
40 197A.312 (2) on the population per square mile, livability in the area, the provision and cost of urban  
41 facilities and services, the rate of conversion of agriculture and forest lands and other consider-  
42 ations;

43 “(b) Consider changes to the statewide land use planning goals or rules to address adverse  
44 outcomes; and

45 “(c) Make recommendations to the Legislative Assembly, as necessary, for statutory changes.

1           “**SECTION 95.** ORS 197A.312 is amended to read:

5 outside Metro that has a population of 10,000 or *[more]* **greater** may evaluate or amend its urban

6 growth boundary.

7           “(2) The commission shall design the method so that:

8           “(a) A city using the method:

9           “(A) Will have within its boundaries sufficient buildable lands and other development capacity,

10 including land and capacity for needed housing and employment opportunities, to meet the growth

11 in population and employment forecast to occur over a 14-year period.

15 basis and in major regions of the state, including that portion of the Willamette Valley outside of

16 Metro.

17           “(c) The rate of conversion of agricultural and forest lands to urban uses does not increase over

18 time in any major region of the state.

19           “(3) Under the method adopted by the commission:

20           “(a) A city’s determination of the amount of buildable lands *[needed for]* **sufficient for needed**

37 capacity of the lands.

38           “(d) A city shall consider a range or combination of measures identified by rule of the commis-

7 “(e) A city shall demonstrate that lands included within the urban growth boundary:

38 has at least the minimum number of stems per acre.

39 “(5) Harvest areas within a visually sensitive corridor shall be cleared of major harvest debris  
40 within 30 days of the completion of the harvest, or within 60 days of the cessation of active har-

45 provisions of ORS 527.745 shall also apply to harvest type 1 or harvest type 3 within visually sen-
