SECTION 1. Sections 2 to 5 of this 2023 Act are added to and made a part of ORS chapter 315.

SECTION 2. (1) As used in this section, “qualified semiconductor company” means an entity whose primary business is the research, design, development, fabrication, assembly, testing, packaging or validation of semiconductors, or an entity whose primary business is the creation of semiconductor manufacturing equipment, semiconductor core intellectual property or electronic design automation software that is primarily intended for use in the semiconductor industry.

(2) A credit against taxes otherwise due under ORS chapter 316 or, if the taxpayer is a corporation, under ORS chapter 317 shall be allowed to eligible taxpayers for increases in qualified research expenses and basic research payments. The credit shall be determined in accordance with section 41 of the Internal Revenue Code, except as follows:

(a) The applicable percentage specified in section 41(a) of the Internal Revenue Code shall be 15 percent.

(b) “Qualified research” and “basic research” shall consist only of research conducted in Oregon by a qualified semiconductor company, in support of a trade or business directly related to semiconductors.

(c) Section 41(c)(4) of the Internal Revenue Code (relating to the alternative incremental credit) does not apply to the credit allowable under this section.

(3) The Income Tax Regulations as prescribed by the Secretary of the Treasury under authority of section 41 of the Internal Revenue Code apply for purposes of this section, except as modified by this section or as provided in rules adopted by the Department of Revenue.

(4) The maximum credit under this section may not exceed \$4 million for any taxpayer.
