The following summary is not prepared by the sponsors of the measure and is not a part of the body thereof subject to consideration by the Legislative Assembly. It is an editor's brief statement of the essential features of the measure.

A BILL FOR AN ACT

1
2 Relating to the method for funding public education.

3 Whereas funding for kindergarten through grade 12 public education accounts for the largest
4 segment of the state's General Fund budget; and

5 Whereas the primary source of funding for kindergarten through grade 12 public education
6 comes from appropriations made by the Legislative Assembly from the General Fund to the State
7 School Fund; and

8 Whereas the Legislative Assembly must develop biennial state budgets based on available re-
9 sources; and

10 Whereas the state budgeting process depends on an accurate analysis of current resources and
11 uncontrollable cost drivers; and

12 Whereas the public relies on fiscal analyses to describe public education fiscal facts with the
13 greatest accuracy possible; and

14 Whereas the calculation process for determining the current service level for public education
15 that is prescribed by the Governor's Executive Order 14-14 has introduced instability to public ed-
16 ucation funding and relies, in part, on policies and organizational entities that are no longer in force
17 or no longer exist; and

18 Whereas confusion about the meaning of the current service level and confusion about the level
19 itself have impacted the stability of school budgets; and

20 Whereas the state's calculation of a budget for kindergarten through grade 12 public education
21 based on current service levels has not and cannot be developed at the level of detail as for other
22 state programs; and

23 Whereas the Quality Education Commission calculates the gap between baseline funding for
24 public education and its recommended full-funding level for public education based on the current
25 service level calculation; and

26 Whereas policymakers rely on the accuracy of the current service level calculation to gauge
27 whether proposed appropriation levels will result in stable school budgets; and

NOTE: Matter in **boldfaced** type in an amended section is new; matter [*italic and bracketed*] is existing law to be omitted.
New sections are in **boldfaced** type.

1 Whereas the State of Oregon has an interest in directing the process for determining the current
2 service level for kindergarten through grade 12 public schools based on accurate information and
3 collaboration among all key entities involved in the school finance process; now, therefore,
