4 state measured by use of any log scale which is or may be in general use in the logging industry  
5 and which is designed to measure total volume of merchantable forest products in board feet. How-

7 due under ORS 321.005 to 321.185 and 321.560 to 321.600 does not accurately reflect the total  
8 quantity of merchantable forest products harvested by the taxpayer, it may require the taxpayer to  
9 adopt another log scale in general use in the industry which in the department's opinion will accu-  
10 rately reflect merchantable harvest in board feet.

11 (6) The first 25,000 feet, board measure, of forest products harvested annually by any taxpayer
