

## SENATE AMENDMENTS TO SENATE BILL 628

By COMMITTEE ON HEALTH CARE

March 10

1       On page 1 of the printed bill, line 7, after “of” insert “up to three monthly immunomodulatory  
2 courses of intravenous immunoglobulin therapy for the” and delete “for” and insert “of”.

3       In line 8, after “syndrome,” delete the rest of the line and delete line 9 and insert “when the  
4 following conditions have been met:

5       “(a) Clinically appropriate trials, which may be done concurrently, of two or more less-intensive  
6 treatments were:

7       “(A) Not effective;

8       “(B) Not tolerated; or

9       “(C) Did not result in sustained improvement in symptoms, as measured by a lack of clinically  
10 meaningful improvement on a validated instrument directed at the patient’s primary symptom com-  
11 plex; and

12       “(b) A pediatric subspecialist was consulted and the pediatric subspecialist and the patient’s  
13 primary care provider recommend the treatment. For an adolescent patient, the consultation may  
14 be with an adult subspecialist.

15       “(2) The health benefit plan may require that the patient be clinically reevaluated at three-  
16 month intervals.”.

17       In line 10, delete “(2)” and insert “(3)”.
