25

26 **“SECTION 30. ORS 430.389 is amended to read:**

27 **“430.389. (1) The Oversight and Accountability Council shall oversee and**
28 **approve grants and funding to implement Behavioral Health Resource Net-**
29 **works and increase access to community care, as set forth below. A Behav-**
30 **ioral Health Resource Network is an entity or collection of entities that**

1 individually or jointly provide some or all of the services described in sub-
2 section (2)(d) of this section.

3 “(2)(a) The Oversight and Accountability Council, in consultation with
4 the Oregon Health Authority, shall provide grants and funding to agencies
5 or organizations, whether government or community based, to establish Be-
6 havioral Health Resource Networks for the purposes of immediately screen-
7 ing the acute needs of people who use drugs and assessing and addressing
8 any ongoing needs through ongoing case management, harm reduction,
9 treatment, housing and linkage to other care and services. Recipients of
10 grants or funding to provide substance use disorder treatment or services
11 must be licensed, certified or credentialed by the state, including certifica-
12 tion under ORS 743A.168 (8), or meet criteria prescribed by rule by the
13 Oversight and Accountability Council under ORS 430.390. A recipient of a
14 grant or funding under this subsection may not use the grant or funding to
15 supplant the recipient’s existing funding.

16 “(b) The council and the authority shall ensure that residents of each
17 county have access to all of the services described in paragraph (d) of this
18 subsection.

19 “(c) Applicants for grants and funding may apply individually or jointly
20 with other network participants to provide services in one or more counties.

21 “(d) A network must have the capacity to provide the following services
22 and any other services specified by the council by rule:

23 “(A) Screening by certified addiction peer support or wellness specialists
24 or other qualified persons designated by the council to determine a client’s
25 need for immediate medical or other treatment to determine what acute care
26 is needed and where it can be best provided, identify other needs and link
27 the client to other appropriate local or statewide services, including treat-
28 ment for substance [*abuse*] **use** and coexisting health problems, housing,
29 employment, training and child care. Networks shall provide this service 24
30 hours a day, seven days a week, every calendar day of the year. Notwith-

1 standing paragraph (b) of this subsection, only one grantee in each network
2 within each county is required to provide the screenings described in this
3 subparagraph.

4 “(B) Comprehensive behavioral health needs assessment, including a sub-
5 stance use disorder screening by a certified alcohol and drug counselor or
6 other credentialed addiction treatment professional. The assessment shall
7 prioritize the self-identified needs of a client.

8 “(C) Individual intervention planning, case management and connection
9 to services. If, after the completion of a screening, a client indicates a desire
10 to address some or all of the identified needs, a case manager shall work
11 with the client to design an individual intervention plan. The plan must ad-
12 dress the client’s need for substance use disorder treatment, coexisting
13 health problems, housing, employment and training, child care and other
14 services.

15 “(D) Ongoing peer counseling and support from screening and assessment
16 through implementation of individual intervention plans as well as peer
17 outreach workers to engage directly with marginalized community members
18 who could potentially benefit from the network’s services.

19 “(E) Assessment of the need for, and provision of, mobile or virtual out-
20 reach services to:

21 “(i) Reach clients who are unable to access the network; and

22 “(ii) Increase public awareness of network services.

23 “(F) Harm reduction services and information and education about harm
24 reduction services.

25 “(G) Low-barrier substance use disorder treatment.

26 “(H) Transitional and supportive housing for individuals with substance
27 use disorders.

28 “(e) If an applicant for a grant or funding under this subsection is unable
29 to provide all of the services described in paragraph (d) of this subsection,
30 the applicant may identify how the applicant intends to partner with other

1 entities to provide the services, and the Oregon Health Authority and the
2 council may facilitate collaboration among applicants.

3 “(f) All services provided through the networks must be evidence-
4 informed, trauma-informed, culturally specific, linguistically responsive,
5 person-centered and nonjudgmental. The goal shall be to address effectively
6 the client’s substance use and any other social determinants of health.

7 “(g) The networks must be adequately staffed to address the needs of
8 people with substance use disorders within their regions as prescribed by the
9 council by rule, including, at a minimum, at least one person qualified by the
10 Oregon Health Authority in each of the following categories:

11 “(A) Certified alcohol and drug counselor or other credentialed addiction
12 treatment professional;

13 “(B) Case manager; and

14 “(C) Certified addiction peer support or wellness specialist.

15 “(h) Verification of a screening by a certified addiction peer support spe-
16 cialist, wellness specialist or other person in accordance with subsection
17 (2)(d)(A) of this section shall promptly be provided to the client by the entity
18 conducting the screening. If the client executes a valid release of informa-
19 tion, the entity shall provide verification of the screening to the Oregon
20 Health Authority or a contractor of the authority and the authority or the
21 authority’s contractor shall forward the verification to the court, in the
22 manner prescribed by the Chief Justice of the Supreme Court, to satisfy the
23 conditions for dismissal under ORS 153.062 or 475.237.

24 “(3)(a) If moneys remain in the Drug Treatment and Recovery Services
25 Fund after the council has committed grants and funding to establish be-
26 havioral health resource networks serving every county in this state, the
27 council shall provide grants and funding to other agencies or organizations,
28 whether government or community based, and to the nine federally recog-
29 nized tribes in this state and service providers that are affiliated with the
30 nine federally recognized tribes in this state to increase access to one or

1 more of the following:

2 “(A) Low-barrier substance use disorder treatment that is evidence-
3 informed, trauma-informed, culturally specific, linguistically responsive,
4 person-centered and nonjudgmental;

5 “(B) Peer support and recovery services;

6 “(C) Transitional, supportive and permanent housing for persons with
7 substance use disorder;

8 “(D) Harm reduction interventions including, but not limited to, overdose
9 prevention education, access to [*naloxone hydrochloride*] **short-acting opioid**
10 **antagonists, as defined in ORS 689.681,** and sterile syringes and
11 stimulant-specific drug education and outreach; or

12 “(E) Incentives and supports to expand the behavioral health workforce
13 to support the services delivered by behavioral health resource networks and
14 entities receiving grants or funding under this subsection.

15 “(b) A recipient of a grant or funding under this subsection may not use
16 the grant or funding to supplant the recipient’s existing funding.

17 “(4) In awarding grants and funding under subsections (2) and (3) of this
18 section, the council shall:

19 “(a) Distribute grants and funding to ensure access to:

20 “(A) Historically underserved populations; and

21 “(B) Culturally specific and linguistically responsive services.

22 “(b) Consider any inventories or surveys of currently available behavioral
23 health services.

24 “(c) Consider available regional data related to the substance use disorder
25 treatment needs and the access to culturally specific and linguistically re-
26 sponsive services in communities in this state.

27 “(d) Consider the needs of residents of this state for services, supports and
28 treatment at all ages.

29 “(5) The council shall require any government entity that applies for a
30 grant to specify in the application details regarding subgrantees and how the

1 government entity will fund culturally specific organizations and culturally
2 specific services. A government entity receiving a grant must make an ex-
3 plicit commitment not to supplant or decrease any existing funding used to
4 provide services funded by the grant.

5 “(6) In determining grants and funding to be awarded, the council may
6 consult the comprehensive addiction, prevention, treatment and recovery
7 plan established by the Alcohol and Drug Policy Commission under ORS
8 430.223 and the advice of any other group, agency, organization or individual
9 that desires to provide advice to the council that is consistent with the terms
10 of this section.

11 “(7) Services provided by grantees, including services provided by a Be-
12 havioral Health Resource Network, shall be free of charge to the clients re-
13 ceiving the services. Grantees in each network shall seek reimbursement
14 from insurance issuers, the medical assistance program or any other third
15 party responsible for the cost of services provided to a client and grants and
16 funding provided by the council or the authority under subsection (2) of this
17 section may be used for copayments, deductibles or other out-of-pocket costs
18 incurred by the client for the services.

19 “(8) Subsection (7) of this section does not require the medical assistance
20 program to reimburse the cost of services for which another third party is
21 responsible in violation of 42 U.S.C. 1396a(25).

22 “**SECTION 31.** ORS 431A.855 is amended to read:
