

Submitter: Xylina Pierce

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SB774

Are you trying to burn this city to the ground?. The taxpayers are already struggling to stay above water with rising rent prices, food prices, and insurance. Giving the people back the money they overpaid this sorry excuse for a government is the least you can do for its people.

By keeping it, you're telling the citizens of Oregon, that your bottom line, your pockets, and your life is more important than the people you serve.

No one in Oregon wants you to keep their money. It's ours, we worked for it, we gave up our time with our families for it. It's not yours to keep.

We voted you in, we can vote you out. Stop being selfish and serve the taxpayers of your state
