

Submitter: Bryan Mumford

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SB774

To whom this may concern,

As Oregonians and the nation as a whole continue to get hammered by the effects of all time high inflation, the fact that you are even voting on this is infuriating. The state has a \$5.5 BILLION dollar surplus from taxpayers of which a portion should be coming back to them as promised through kicker refunds. Our city streets are strewn with garbage, homelessness continues to run rampant, our public roads are rife with potholes... the list goes on. The mismanagement of our taxpayer dollars is disgusting. Even with a \$5.5 billion dollar surplus you are pushing forward with tolls on our highways to tax us EVEN MORE! I strongly oppose SB 774 and hope you will as well. We have had enough.
