

Submitter: Jeff Bledsoe

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SB774

The kicker is in the Oregon constitution for a reason, to keep people like those that are pushing this bill from being able to simply push through the change. The state overcharged us and they need to return those overcharges. If a business overcharged a person would you support them saying, well we want this for other purposes, so we're not going to return it... Really?

I will likely never vote to change the Oregon constitution and certainly not for this change. As a native Oregonian we need to protect those values and keep those with other interests from ruining our fine state. If they are from somewhere else and think it was so great there, the road goes both ways folks... you're welcome to go back to wherever you came from.
