

Submitter: Brandon Hoover

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SB774

We the citizens are already taxed enough. Beyond That it is insane that a legislature and state that completely mismanages the substantial tax dollars they already Receive, is asking to have billions more they have no right to, and will undoubtedly mismanage and spend on pet projects that don't actually help anyone. Maybe just maybe if the legislature managed the money that already receive and actually followed through to make sure the money isn't misspent. You wouldn't be trying to essentially steal more money from hard working and over taxed Oregonians
