You have no right to keep tax payers money! If you want to put it to a public vote, fine. But I guarantee, right now most tax paying citizens have no idea their elected officials are trying to dupe them out of their rightful refund. I'm so sick of this state taking from the middle class who work themselves into poor health and an early grave to hand it out to those that do nothing but sit and wait for hand outs you have taught them they are entitled to!! Don't think we don't know!! And I guarantee you'll use some if it to give yourself a raise. HOW DARE YOU! I'm not vixal about politics but I'm fixing to begin being sure everyone knows.
