

Submitter: Trish Backsen

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SJR26

NO vote on SJR 26. Why does the legislature always try to overturn the will of the voters. Every time something is voted in, then it seems like a challenge for legislature to try to find a work around! It is getting really frustrating! It is time for the Oregon government to live within its means! The rest of us have to!! You have increased taxes every time you are in a legislative session. You forced the CAT tax onto small businesses and it was supposed to fix our educational system. Well, just throwing money into a bottomless pit isn't working! Our state is one of the highest for taxation and lowest for educational competence! Time to look in a different direction. People can utilize the kicker refund more effectively than the government can!!
