

Submitter: Barbara Goodwin

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SB774

You have NO right to keep the surplus taxes that belong to the hard working citizens of this state!!! How dare you sit there today making decisions that have already been made before! You want to put it to a public vote, fine! But to sneakily sit there trying to figure out how to greedily steal money that rightfully belongs to the very people who you forcefully take it from to begin with is criminal. I'm so sick of watching government steal from the middle class people who work themselves into poor health and an early grave so you can get rich off serving those same people. If that's not bad enough you hand the rest to the people who sit and wait for the hand outs you've taught them they are entitled to! Then you want to tax us more every dang time! Don't think we the people don't know!!! I'll be expecting my kicker refund!
