

Submitter: Vikki Payne

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SB774

Please figure out how to budget properly and stop playing games with our tax dollars for fringe programs that should be dealt with at the federal level that are attracting low to no income people to relocate to Oregon to take advantage of these programs, in effect stealing Oregonian tax dollars. You wouldn't need the kicker money if you would turn off the progressive welcome sign to Oregon and instead lobby the federal government to do these social programs Oregon clearly can't afford to fund for the entire country by itself. Give us our kicker money back and figure out how to handle our money in a more accountable and transparent manner, otherwise we're on the brink of those who pay the most taxes continuing to depart our state for friendlier places they get more ROI from. Thank you for voting no.
