Measure: SB774

It's unclear to me as to why the State of Oregon would dissolve our kick back 2023 when we have a surplus? We hard working Oregonians deserve better from you who supposedly represent us. We live within our means and you have no right to steal from the citizens because the government is not living within your means. That is tax dollars you collected which was obviously too much and we deserve to have it paid back at the end of the year. Shame on you all.
